Reason for Minor Update

Amended report wording

The reference to conditions 17 and 18 at paragraph 5.23 of the main agenda should read condition 18 and 19.

Conditions added/deleted/amended

Further to paragraphs 5.33 – 5.35 additional information has been provided by the Applicant regarding land stability and coal mining legacy issues. The information is considered acceptable, therefore is recommended that Conditions 34 and 35 become compliance conditions (not requiring the submission of any further information).

Further to paragraphs 5.28 – 5.32 an additional consultee comment has been received regarding land contamination. Based on the comments, it is considered further information is required in regard to the submitted remediation strategy for 'Phase 1' of the development. It is therefore recommended that condition 27 should be amended to require the submission of further information.

In all other regards the report and recommendation remains unchanged.

22. No work in relation to any proposed drainage features shall take place until a long-term management plan for the drainage scheme approved under Condition 20 has been submitted to and approved in writing by the Local Planning Authority.
23. The drainage scheme approved under Condition 20 shall be managed in full accordance with the management plan approved under Condition 22 for the lifetime of the development.
24. No work in relation to any proposed drainage features shall take place until a construction management plan for the drainage scheme approved under Condition 20 has been submitted to and approved in writing by the Local Planning Authority.
25. The drainage scheme approved under Condition 20 shall be constructed in full accordance with the construction management plan approved under Condition 24.
26. No part of the development hereby approved shall be brought into use until a sprinkler suppression system has been installed within the development hereby approved in accordance with BSEN 12845 incorporating TB221 for schools from the LPCB.
27. Phase 1 of the development shall take place in full accordance with the approved remediation statement (Phase 3 Remediation Statement, February 2018) and shall be maintained for the life of the development.
28. Following completion of the remediation measures approved under remediation statement (Phase 3 Remediation Statement February 2018) a verification report that demonstrates the effectiveness of the remediation carried out must be submitted for the written approval of the Local Planning Authority prior to first occupation of the development hereby permitted and maintained for the life of the development.
29. No development pertaining to Phase II of the development (other than demolition) shall commence until an additional Phase 2 intrusive site investigation has been undertaken by a suitability qualified person(s), to investigate the potential for contamination to exist within the whole site area or within each phase and subsequent phase, as part of an agreed timetable. A Phase 2 Risk Assessment report of the findings submitted to the Local Authority for written approval.

The site investigation will consist of a series of boreholes/trial pits, insitu testing, groundwater and ground gas monitoring, soil sampling and chemical and geotechnical laboratory testing of samples to assess potential contamination issues and inform foundation design.

The site investigation and Phase 2 Risk Assessment report shall identify potential contamination, and Possible areas which may require remedial works in order to make the site suitable for its proposed end use to ensure that no contamination is present that poses a risk to future users of the site and construction workers. Reference should be made to CLR 11 – Model Procedures for the Management of Land Contamination and BS 10175:2011 – Investigation of Potentially Contaminated Sites – Code of Practice.

The Risk Assessment should confirm possible pollutant linkages and should provide, where

applicable, recommendations with regard to an appropriate remediation scheme, which will ensure safe redevelopment. Ground gas monitoring should be undertaken at the site and a Gas Risk assessment report produced and submitted to the Local Authority with recommendations for ground gas mitigation measures

30. Prior to the commencement of development pertaining to Phase II of the development (other than demolition), where required, a detailed remediation scheme to remove unacceptable risks to human health, buildings and other property and the natural and historical environment must be prepared and submitted for the written approval of the Local Planning Authority. The scheme must include all works to be undertaken, proposed remediation objectives and remediation criteria, timetable of works and site management procedures. The scheme must ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 in relation to the intended use of the land after remediation.
31. The remediation measures shall be carried out in full accordance with the details approved under condition 30 and shall be maintained for the life of the development.
32. Following completion of the remediation measures approved under condition 30 a verification report that demonstrates the effectiveness of the remediation carried out must be submitted for the written approval of the Local Planning Authority prior to first occupation of the development hereby permitted and maintained for the life of development.
33. In the event that contamination is found at any time when carrying out the approved development that was not previously identified, it must be reported in writing immediately to the Local Planning Authority. Development must be halted on that part of the site affected by the unexpected contamination. Where required by the Local Planning Authority an investigation and risk assessment must be undertaken, and where remediation is necessary a remediation scheme shall be submitted to and approved in writing by the Local Planning Authority.

Following completion of measures identified in the approved remediation scheme a variation report shall be submitted to and approved in writing by the Local Planning Authority.
34. Prior to the commencement of the development hereby approved intrusive site investigation works shall be undertaken in order to establish coal mining legacy issues on site. The findings of the intrusive site investigations works in relation to coal mining legacy issues along with details of any remedial works (and timescales) required shall be submitted and approved by the Local Planning Authority prior to the commencement of the development hereby approved.
35. Any remedial works identified under Condition 34 shall be implemented in accordance with the timescales set out in the approved findings.
36. All works, including demolition, shall be undertaken in accordance with section E3.1 of the submitted Bat Survey Report (Dendra Consulting Ltd, August 2017). A copy of the report will be retained on site for the duration of the demolition/construction phase of the development.

Further representations made

A further 17 letters of support have been received, they are summarised as follows:

- The proposal would support local businesses;
- The facility would be used by local residents;
- The proposal would not impact on local residents and;
- The development would be located in an accessible location;

In the view of officers, the matters raised in support of the application are not sufficient to outweigh the harm caused. As such, the recommendation to committee remains unchanged.

Decision(s) and any conditions attached:

That permission be REFUSED for the following reason(s) and that the Strategic Director of Communities and Environment be authorised to add, vary and amend the refusal reasons as necessary

1. By virtue of its location and design, the proposed development would cause an unacceptable visual impact on the application site and wider area. As a result the development is contrary to the National Planning Policy Framework, policy CS15 of the Core Strategy and Urban Core Plan and saved policy ENV3 of the Unitary Development Plan.
2. A carwash business in this location is considered likely to require mitigation to prevent any adverse effect on nearby operations. The applicant has not provided any form of noise assessment, noise mitigation information or any details of the equipment proposed for use. Therefore, it is considered that insufficient information has been submitted to say that the development would safeguard amenity and thus it is contrary to the NPPF, saved policy ENV61 of the Unitary Development Plan and Policy CS14 of the Core Strategy and Urban Core Plan.
