Policy Context

1. The work of the Health and Safety Service is directly linked to 'Vision 2030' in particular through the Active and Healthy theme by promoting and maintaining good standards of occupational health, safety and welfare within the workplace environment.
2. The work of the Food Control Service is directly linked to 'Vision 2030' in particular through the Active and Healthy theme by ensuring the safety, hygiene and standards of food produced, supplied and consumed in Gateshead and by controlling food and water-borne illness. The service also provides help and advice to small business leading to sustainable economic growth of small business.

Background

3. Gateshead Council is an Enforcing Authority under both food safety and health & safety law and has mandatory, statutory responsibilities to enforce the relevant legislation.
4. The Government's National Priorities (as identified in the Rogers Review 2007) include:
 - 'Improving health in the workplace' because of 'the high risks posed to individuals, their families, business and the costs to the economy'
 - 'The hygiene of businesses selling, distributing and manufacturing food and the safety and fitness of food in the premises' because of the high impact in terms of numbers of deaths and ill health caused by unhygienic food businesses and the high costs to the economy
5. Development, Transport and Public Protection considers the Government's Better Regulation agenda when planning and delivering its services

Consultation

6. The Cabinet Members for Environment & Transport, Adult Social Care and Health & Wellbeing have been consulted.

Alternative Options

7. The Plan is based on delivery of the minimum interventions required to meet the statutory responsibilities placed on the Council using the resources currently allocated to the services.
8. Failure to deliver the minimum interventions is not an option.
9. Delivery of a more comprehensive Intervention Plan would require additional resources.

EXECUTIVE SUMMARY

Despite reduced resources the Environmental Health Team of the Council still responds to over 800 accidents, food poisonings and complaints and undertakes over 1500 interventions in a wide range of premises in order to build stronger, healthier, prosperous and sustainable businesses.

The Food Standards Agency (FSA) as part of its national food safety framework agreement requires all Local Authorities to prepare a service plan which sets out how the official controls will be delivered.

The Health and Safety Code (The Code) requires Local Authorities to be transparent in their enforcement role. In order to achieve this we need to publish our intervention plan and report on our performance against that plan.

This plan sets out the overall aims of the Environmental Health Team and how the Council will deliver the food safety and health and safety enforcement functions in the financial year 2017/2018.

The plan describes the profile of businesses in the borough and the way in which this determines how the intervention programmes are planned.

It also describes the nature of service requests received and how they are managed and responded to within the service.

The resources allocated to deliver the service are set out for 2017/2018 and the ways in which business and customer satisfaction are monitored and maintained.

The plan includes a review of the work of the Environmental Health Team in 2016/2017 and the priorities and plans for the coming year.
