**Reason for Minor Update**

**Further representations made**

Letters of support have been received from Councillors Beadle and Duggan. The following comments have been made:

- **The Three Tuns Hotel is an award winning local venue and a community asset and has suffered significant security problems and needs to have the level of protection afforded by roller shutters at night.**
- **The shutters are only visible at night or early morning and are only seen at those times.**
- **They do nothing to detract from the appearance of the site which is important as a landmark in Sheriff Hill.**
