6 Applications in relation to premises that are in close proximity to other listed chemist premises

This section should only be completed if the premises included in section 2 above are adjacent to, or in close proximity to, another pharmacy or dispensing appliance contractor premises.

In my/our view this application should not be refused pursuant to Regulation 31 for the following reasons:

The proposed premises are not adjacent to another pharmacy premises.

7 Information in support of the certain applications

7.1 Relocation of premises in an approved retail area

This section applies where the current premises were included in a pharmaceutical list as a result of an application to which Regulation 13(1)(a) of the NHS (Pharmaceutical Services) Regulations 2005, as amended, applied (approved retail areas)

If the new address is not in the same approved retail area please explain why you believe your application should not be refused in accordance with Regulation 24(3)(a).

7.2 Relocation of premises in a one-stop primary care centre

This section applies where the current premises were included in a pharmaceutical list as a result of an application to which Regulation 13(1)(c) of the NHS (Pharmaceutical Services) Regulations 2005, as amended, applied (one stop primary care centre).

Are all the providers of primary medical services at the one stop primary care centre relocating to the new address?

Yes No

Will there still be a list or combined list of at least 18,000 patients served from the new address?

Yes No

Will the services of a broad range of health care professionals be regularly and frequently provided at the new address (together, where appropriate with other health or social services)?

Yes No

If the answer to any of the questions above is "no" please explain below why you believe your application should not be refused in accordance with regulation 24(3)(b).

7.3 Relocation following a relocation in the last twelve months

This section applies where you relocated to the current premises within the last twelve months, whether that was the result of an application under Regulation 24 of the 2012 Regulations or the 2013 Regulations or Regulation 6 or 7 of the 2005 Regulations.

Please explain why you believe your application should not be refused in accordance with Regulation 24(3)(c).

8 Information in support of all no significant change applications

Please use the box below to explain why you consider that the new premises are not significantly less accessible for the patient groups that are accustomed to accessing pharmaceutical services at the existing premises.

The new premises are less than 70metres away from the current premises (using google maps) and so will serve the same patient population. The new premises are located closer to the Whickham GP practice (less than 20metres door to door). There are no significant barriers in between the two premises and patients would have access to near by parking.

Please use the box below to explain why you consider that granting the application will not result in a significant change to the arrangements that are in place for the provision of local pharmaceutical services or pharmaceutical services (other than those provided by dispensing doctors) in any part of the HWB's area or any controlled locality within 1.6 kilometres of the new premises.

The new premises are less than 70 metres away from the current premises (using google maps), this should mean that there is no significant change to any current arrangements for pharmaceutical services in the HWB area.

Please use the box below to explain why you consider granting the application will not cause significant detriment to the proper planning in respect of the provision of pharmaceutical services in the HWB's area.

The minimal distance of this relocation will mean that there is no detriment to the planning of pharmaceutical services for the HWB area.

Are the services to be provided at the new premises the same as those that have been provided at the current premises (whether or not, in the case of enhanced services, NHS England chooses to commission them)?

Yes No

If no, please give full details in the box below.

Will there be any interruption to service provision?

Yes No

If yes, please give full details in the box below.

9 Distance selling premises

9.1 Are you applying for a relocation in relation to distance selling premises?

Yes No

If no, continue to section 10.

If yes, please continue with this section.

9.2 Proposed premises that are on the same site or in the same building as the premises of a provider of primary medical services with a patient list.

This section should only be completed if the premises included in section 2 above are on the same site or in the same building as the premises of a provider of primary medical services with a patient list.

In my/our view this application should not be refused pursuant to Regulation 25(2)(a) for the following reasons:

9.3 Please explain how the pharmacy procedures used within the premises will secure:

1. the uninterrupted provision of essential services during the opening hours of the premises, to persons anywhere in England who request those services, and
2. the safe and effective provision of essential services without face to face contact between any person receiving the services, whether on their own or someone else's behalf, and the applicant or the applicant's staff.

Please describe the procedure that will be followed where a patient attends the premises and asks for one or more of the essential services.

If you are undertaking to provide advanced services at the premises please describe how you will do so without providing any element of essential services.
