

## **Sheriff Highway Stores Update to Review Application**

**Email sent 18 July 2022**

Licensing,

I would like to add further information to my review application that I submitted to you. It is in relation to the advice visit of 27<sup>th</sup> May 2021. This advice visit was carried out following an attempted test purchase by our volunteer to purchase alcohol. The volunteer on this occasion was asked to provide ID and was refused the sale. The last date that was recorded in the refusal book at that time was 25<sup>th</sup> May 2019. Training records were also provided to Jaafar JAAFAR and advised that training records were needed for all staff employed.

Further intelligence was received by Trading Standards later in the year that prompted the further visit to the premises by Michael Stedman in relation to the allegation of minors purchasing alcohol. Michael again provided advice to the business operator.
