GATESHEAD METROPOLITAN BOROUGH COUNCIL

CARE, HEALTH AND WELLBEING OVERVIEW AND SCRUTINY COMMITTEE MEETING

Tuesday, 24 October 2023

PRESENT: Councillor S Green (Chair)

Councillor(s): J Green, W Dick, P Diston, J Gibson,
B Goldsworthy, M Goldsworthy, M Hall, G Kasfikis,
J McCoid, I Patterson, S Potts, J Wallace, D Weatherley and
A Wintcher

IN ATTENDANCE: Officer(s): S Downey, J Costello, G Anderson

APOLOGIES: Councillor(s): D Robson

CHW7 MINUTES OF LAST MEETING

The minutes of the meeting held on 24 October 2023 were agreed as an accurate record with no matters arising.

CHW8 SOCIAL CARE RECRUITMENT

An update was given to the OSC regarding the approaches taken by Integrated Adults and Social Care Services to address the challenges in social care recruitment.

Whilst the challenge is universal, the sector is varied, wide ranging and encompasses multiple roles and organisations. Consequently, the issues affecting recruitment and retention are also multifactorial and the potential solutions equally so.

Gateshead have been heavily influential in this work with the Service Director for Adult Social Care chairing the regional group and have pioneered the work on training models for professionally qualified roles, utilising the apprenticeship levy.

The regional strategy has focused on areas such as:

- Career pathways/career development opportunities
- Retention strategies
- Understanding data/workforce planning
- Apprenticeships – upskilling the existing workforce and recruiting new talent
- Comms and marketing
- Hyperlocal recruitment
- International recruitment

The approaches taken are enabling the Service to bring new people into the organisation, and the of interest in these roles has been significantly higher than our traditional roles/methods of recruitment.

The Service has been keen to share the good practice and learning with other parts of the Council, partners in Gateshead and other Adult Social Care departments regionally. The work on trainee roles has been highlighted with the Department of Health and Social Care; the service has delivered a number of webinars regionally and nationally and was referenced by DHSC as an example of good practice, and by Social Work England as part of their Sector Led Improvement offer.

The work with the Local Government Association in respect of the social care workforce data is being piloted in Gateshead as an early adopter of the model, meaning that we are benefitting from senior advisory support from a workforce expert funded by the LGA to develop our strategy and approaches.

The OSC commended the work of Integrated Adults and Social Care Services.

RESOLVED:

- i. The OSC noted the report.

CHW9 HEALTH AND WELLBEING BOARD - PROGRESS UPDATE AND BETTER CARE FUND UPDATE

The OSC were updated on the work of the Gateshead Health & Wellbeing Board for the six-month period of April – September 2023.

The items covered in the update are as follows:

- Health and Wellbeing Strategy: Progress summary, draft approach and plan for implementation
- Gateshead Place Plan
- A New Home Improvement and Assistance Service for Gateshead
- Specialist & Supported Housing Needs Assessment & Strategy
- Gateshead's Children and Young People's Mental Health and Emotional Wellbeing Local Transformation Plan 2023-24
- Update on Learning Disability & Autism, and Mental Health Transformation
- Prevent Update – Northumbria Police
- Workforce and Workforce Development
- Notification of Removals from the Pharmaceutical List and Changes to Pharmacy Opening Hours
- Gateshead Cares System Board
- Assurance

The OSC recognised that there is a high demand on community police regarding call outs for mental health patients. Concerned that as part of Right Care Right Person, adults redirected to adult social care will not meet the

safeguarding criteria for support.

Colleagues from adult social care are planning regular meetings with the police on the progression of Right Care Right Person. There are concerns that there is no additional funding allocated for the services that police calls will be diverted to when this scheme comes into effect. The Integrated Care Board (ICB) is involved in the implementation of the Gold Group. Officers from Gateshead Council and the NHS are involved in the implementation of the Silver Group.

RESOLVED:

- i. OSC members requested that a presentation on Right Care Right Person be added to the Care, Health and Wellbeing OSC Work Programme.
- ii. The OSC agreed the report.

CHW10 CQC ASSURANCE

The OSC was updated regarding the preparatory work that Integrated Adults and Social Care Services is undertaking. Information was also given to facilitate scrutiny in respect of the work undertaken so far, and the work planned.

The Integrated Adults and Social Care Services department has been working with regional colleagues in the Association of Directors of Adult Social Services (ADASS) to prepare for the inspection and assurance process.

The service is part of a number of regional Sector Led Improvement networks where they share good practice with neighbouring Local Authorities and learn from each other.

Through these networks they have received feedback from both CQC and the Local Authorities that have been through the pilot inspections, which are being used to guide preparations.

The current high-level understanding of the inspection process is:

- Annual conversation with CQC
- Completion of a Self-Assessment (areas of strengths and areas for development)
- Notification of impending inspection
- Identification of 50 case files
- Information sharing
- On site assessment: focus groups, case file audit, meetings with key people
- Initial feedback and clarification process
- Outcome and action plan

The service has identified a modest number of additional posts to facilitate both the inspection process, and the ongoing and continuous assurance/inspection readiness. Recruitment is ongoing.

Gateshead like all Local Authorities has been advised it will receive a one-off payment of £26,730 which the Government believes will fund the additional capacity and capabilities required.

The draft self-assessment is partially completed and will be finalised by end of November 2023 (the self-assessment will then be updated on a planned basis).

Relevant information and evidence is being gathered; e.g. the coproduction and consultation undertaken to review the Adult Social Care pages of the Councils website.

Work is ongoing in respect of the case file tracking process, and this will be complete by February 2024.

Colleagues across the service, wider Council and partner organisations have been kept up to date with tailored communications.

The Health and Wellbeing Board has agreed to establish an Assurance Sub Committee which will look at CQC and Ofsted Assurance via a Gateshead Health and Care System lens.

RESOLVED:

- i. The OSC noted the report.

CHW11 CQC MATERNITY INSPECTION REPORT

The Committee were presented a report on the Care Quality Commission of maternity services at Queen Elizabeth Hospital.

The overall summary of services, relating to safe services and well-led services, were scored as good.

The following outstanding practice was highlighted:

- The lead midwives for diabetes had developed a Gestational Diabetes Mellitus (GDM) education session and offered individual sessions to women and birthing people who were non-English speaking and required interpreting services. Diabetes antenatal clinics provided a waiting area for women with GDM to provide healthy snacks and support and education from dietician.
- A grab bag project was in place to provide vulnerable women and birthing people fleeing domestic violence with basic amenities. An assessment would be made so that staff could determine what the

person would need.

- The service had introduced the implementation of postnatal contraception and advice and information given within antenatal clinics to support women with pre-conceptive advice on tobacco dependency, alcohol misuse, positive mental health, postnatal contraception, nutrition, and physical activity.

The following areas for improvement were highlighted:

- The trust should ensure staff complete mandatory training, including safeguarding and regular updates.
- The service should ensure women and birthing people feel listened to by staff and their partners.

The inspection score is given through a combination of five reviewed areas. The rating system used in the report had four levels:

- Inadequate
- Requires improvement
- Good
- Outstanding

It was noted that all other areas of the North East were given a score of requires improvement.

The Committee commended the results of the report.

RESOLVED:

- i. The OSC noted the report.

CHW12 WORK PROGRAMME

The Committee received a report which provided details on the development of the work programme for Care, Health and Wellbeing Overview and Scrutiny Committee for the municipal year 2023-24.

The proposed 2023-24 work programme was attached to the main report as Appendix 1 and remains provisional as:

- i. Cabinet may wish to refer further issues to OSC's for further consideration.
- ii. It does not consider new policy issues which may be identified during the year, which Cabinet may wish to refer to Overview and Scrutiny, and it does not include issues identified by members of committees on an ongoing basis during the year as a result of scrutiny decisions, call in and councillor call for action.

RESOLVED:

- iii. That the information be noted.
- iv. The Committee endorsed the OSC's provisional work programme for 2023-24 attached at Appendix 1, subject to any amendments arising from consideration of Appendix 1.
- v. The Committee noted that further reports will be brought to the Committee to identify and additional issues which the Committee may be asked to consider.
- vi. To add an item to the Work Programme on the topic of Right Care Right Person.

CHW13 TIME AND DATE OF NEXT MEETING

The next meeting of Care, Health and Wellbeing Overview and Scrutiny Committee will be held on 5 December 2023 at 13:30 in the Bridges Room.

Chair.....

TITLE OF REPORT: Performance Management and Improvement Framework 6-Month Performance Report 2023/24

REPORT OF: Darren Collins, Strategic Director, Resources and Digital

SUMMARY

This report provides the Committee with the Council's new Performance Management & Improvement Framework, reporting performance on the delivery of Council priorities for the period 1 April 2023 to 30 September 2023. It also provides an overview of performance relevant to the role and remit of this committee.

Purpose of the Performance Management and Improvement Framework (PMIF)

1. The Performance Management and Improvement Framework (PMIF) enables the Council to know how it is delivering on its Thrive policy. It has a clear focus on priorities, delivery, measurement, and analysis of impact. It is based on Thrive and the Health and Wellbeing Strategy and incorporates an organisational 'health check' Balanced Scorecard.

Background

2. The Council's performance framework was reviewed, and a new approach was agreed by Council on 27 May 2021. The draft measures were considered and agreed by Cabinet in October 2021, with further updates to several measures agreed by Cabinet in subsequent reporting cycles. The reporting of 2022/23 performance was considered by Overview and Scrutiny Committees in June and agreed by Cabinet in July 2023.
3. The PMIF aims to:
 - Enable the Council to know whether it is achieving its priorities (Thrive Policy).
 - Ensure that the Council's resources are being deployed effectively.
 - Make both short and long-term effective decisions, and the Council's approach to resource allocation and budget setting.
 - A whole systems approach – embedded in our partnership working to deliver the Health and Wellbeing Strategy.

6-month reports

4. The analysis of performance for 1 April 2023 to 30 September 2023, against each of the 6 policy objectives of the Health and Wellbeing Strategy and the Balanced Scorecard is set out at Appendix 1. Areas of relevance to this Committee are highlighted in this report, however, the entire Performance Management & Improvement Framework is provided to enable members to see the full picture of performance across all priority areas at Appendix

1. Please note that the current version attached at Appendix 1 is a draft, as the performance data and analysis is regularly being updated due to the iterative nature of the framework.
5. The performance reports outline the challenges, achievements, actions, and resources for each policy objective. It also contains performance data including strategic and operational measures and is informed by qualitative and quantitative assessment to inform policy and resource decisions.
6. Some data is not available at 6-month stage. Indicators are released throughout the year, some annually which do not coincide with this reporting cycle. Where provisional data is available this has been provided. The report sets out the current performance for the strategic and operational measures, where data is available, at the 6-month stage.
7. Cross-cutting key emerging areas already being highlighted are:
- Budget pressures continue to provide a significant challenge.
 - Continuing demand pressures being faced by services, which are compounded by the ongoing recruitment and retention issues.
 - The cost-of-living and high interest rates are impacting the financial challenges facing many residents.
 - The economic climate continues to make things difficult for many businesses in the borough.
8. An overview will be provided at the Committee meeting, however, other key areas to highlight include:
- Challenges include:*
- The percentage of people receiving direct payments for social care in comparison to commissioned services (18.1%) is below the national average (24%). Further work is needed to increase accessibility and availability of direct payments to meet national averages.
 - Those awaiting a care act assessment or reassessment although high, are routinely risked assessed for complexity of needs. Options are being explored to find both a short-term solution to reduce waiting list numbers but also consider the long-term resolution to avoid a build-up of waiting lists in future.
 - There remains a lack of suitable specialist accommodation for people with complex care needs.
 - Those with learning disability supported into suitable paid employment was 5.3%. This is down from this time in the previous year when the figure was 7.6 %.
 - Recruitment and retention issues continue to be a challenge across the Adult Social Care workforce.
 - A large number of Adult Safeguarding Concerns are being referred into ASC, of which 46.4% do not meet the criteria for Safeguarding Duty to apply.

Areas of excellence and improvement include:

- Trainee models for Social Work and Occupational Therapy has brought in new recruits to our assessment teams and work for the service whilst undertaking a degree apprenticeship. This has helped with recruitment and capacity issues whilst growing our professionally registered workforce for the future. Our Trainee models have been recognised as national best practice by DHSC.
- The development of the Dementia Care specific apartments at Watergate Court has been recognised in the Nursing & Residential Care Journal.
- The work the Council sponsors on Digital Inclusion has been nominated for a Dynamo NorthEast tech sector award.
- All of the Councils in-house care services continue to be recognised as Outstanding or Good by the Care Quality Commission.
- With the addition of additional investment in Substance Misuse Services to support the 10-year drug strategy, developments continue to add capacity, diversity, and quality to the drug and alcohol treatment system in order to improve outcomes for those experiencing difficulties with substances in Gateshead.
- Public Health continues to work collaboratively with the NHS and wider partners on a comprehensive multi-strand approach to reducing smoking prevalence, working towards our aim of achieving an adult smoking prevalence of 5% by 2030.

Actions include:

- Funding has been ringfenced for a direct payment support service – a project between finance and social care has started to implement a direct payment support service which will aim to increase the number of people accessing direct payments.
- An LGA Peer review has been scheduled to provide a robust and effective improvement tool which will seek to help the Council deliver good support to local people and assist with preparation for a CQC Inspection.
- National Development Team for Inclusion (NDTi) development programme to commence which will include development support, research, change, leadership development and evaluation.
- Sister Winifred Laver Promoting Independence Centre to open which enhance our reablement service.
- A service restructure and creation of new heads of function will provide a greater support to manage and implement strategic change and policies.
- Relaunch of the Voiceworks programme will address the reduction in people with a learning disability supported into paid employment.

Further development

9. Measures are being continuously reviewed to understand where changes may be needed to ensure the PMIF remains robust and relevant. The development of the Corporate Plan may influence and inform future priorities of the Council which would then inform the performance content of the framework. It is important the PMIF is flexible and able to evolve to ensure it

remains relevant. Work continues to develop the framework further to ensure it is best placed to enable the Council to understand its performance against priorities.

Office of Local Government

10. In July 2023, the Government announced the establishment of a new government function, Office for Local Government (Oflog). The aim of this is to improve transparency and accountability. Oflog will be a new performance body for local government. Its aim is to provide authoritative and accessible data and analysis about the performance of local government and support its improvement.
11. There is a new online tool called Local Authority Data Explorer which brings together a selection of existing metrics across a subset of service areas for data that is available at different levels of local government. Oflog plan to add further service areas and expand existing areas, as the metrics are developed.
12. The initial metrics in July 2023 looked at by Oflog are in the areas of:
 - Adult Social Care;
 - Adult Skills;
 - Finance; and
 - Waste Management.
13. Future areas identified in November 2023. include:
 - Mayoral Combined Authorities (covering Business and Economic Growth, and Roads)
 - Waste Management (Fly-tipping);
 - Corporate & Finance;
 - Children's Social Care;
 - Homelessness and Rough Sleeping;
 - Public Health;
 - Youth Justice & Accommodation; and
 - Planning.
14. The Commercialisation and Improvement Team are continuing to monitor and discuss the development and expansion of metrics, as further information is released, and this will be incorporated into the ongoing development and evolution of the PMIF.

Digital

15. An online/digital format is currently in development. This will aim to cluster measures around key priority areas and allow users to filter performance information dependent on their area of interest, as well as presenting a visual representation of the performance data to be used alongside the analysis. This is a complex task and involves the Council's Digital Team but will aim to provide performance data at different levels from strategic to operational in an easily accessible way.

Recommendations

16. Care Health and Wellbeing Overview and Scrutiny Committee is recommended to:

- Comment on the 6-month report at Appendix 1 and identify any areas for further scrutiny.
- Recommend the performance report to Cabinet for consideration in January 2024.

WHAT DO WE WANT TO ACHIEVE? – Our Outcomes

All children start school ready to learn
All permanent school exclusions are prevented

The circumstances which result in adverse childhood experiences are prevented
Parents can access support proportionate to meet their needs, to be the best parents they can be

CHALLENGES / AREAS FOR IMPROVEMENT

Strategic

- Whilst there has been a reduction in the number of children who need to be taken into care in last 12 months, the overall rate per 10,000 remains higher than regional comparators and statistical neighbours.
- There continues to be a challenge in ensuring sufficient placements for children in care locally.
- There has been an increase in the numbers of pupils eligible for free school meals to 28.6% from 27% the previous year with take up of FSM from those eligible in primary schools steady YoY at 72%, with seasonal increases during the autumn/winter terms. 24.2% of under 16's lives in relative low-income families with 19.5% in absolute low-income families.

Operational

- There has been an increase in the number of children who have been closed to early help and not required statutory services for 6 & 12 months.
- Special Guardianship Orders for children requiring care from family members have seen an increase in the average time taken.
- Children who are persistently absent from school currently matches the national average and this is monitored closely.
- There has been a significant increase in the number of children permanently excluded from school in the last year with persistent disruptive behaviour cited as the reason for 43% of these.

AREAS OF EXCELLENCE

Strategic

- The overall rate of children in care is falling as Edge of Care strategies including the work of the pre-birth; FDAC and family group conferencing teams are being seen to have impact. Less children are entering care and more children are leaving care, which is bringing the rate back in line with comparators.
- September saw the launch of the regional fostering hub, which will bring combined marketing and initial on-boarding of proposed foster carers across all 12 NE local authorities to support increased sufficiency.
- Gateshead chosen as one of 4 local authorities to pilot the new Family Network Project announced by DFE in July 23. This comes with significant new investment to help to build on the Edge of Care strategies and work to support families to care for children within their own networks and reduce the risk of children coming into local authority care.
- Number of schools graded as Good or Outstanding exceeds 90%.
- Year 1 & 2 phonic screen outcomes are beginning to return to pre pandemic levels nationally and for Gateshead. The widest gaps between Gateshead and national are for children whose home language is not English.
- KS1 assessments at age 7 -- schools have focussed on the basics of reading, writing and mathematics to support children to catch up. Outcomes are slowly beginning to return to levels seen pre pandemic nationally and for Gateshead. Gateshead outcomes are not significantly different from national other than for children whose home language is not English.
- In KS2 assessments at age 11- pupils outperformed their peers nationally in all subjects. Reading outcomes have returned to pre pandemic levels nationally with Gateshead outcomes higher than this. There has been a significant work in schools to close gaps in reading. The impact on writing outcomes continues to be seen at a national and local level.

Operational

- There has been an increase in the number of children who have been closed to early help and not required statutory services for 6 & 12months.
- The launch of the new kinship ready training programme for new Kinship carers and the launch of the young people's kinship kids' group.
- Gateshead children's teams and foster carers were recognised for their outstanding achievements at this year's National Children and Young People Awards. Two foster carers, our Social Work Academy and the Kinship Team were all successful in winning awards.

ACTIONS

Strategic

- Work on the sufficiency strategy is progressing to target and updated strategy will be completed in December 2023.
- An Alternative Provision Strategy is being developed in order to reduce the number of Permanent Exclusions.
- The Working Together to Improve Attendance Strategy document will be launched with schools / parents to support school attendance.

Operational

- Family Hubs launched across the council which will increase opportunities for early identification of needs and reduce the number of families escalating into statutory services for support.
- We are currently in the process of registering one solo residential children's home and one three bedded children's home to support sufficiency or children in care.
- Continued focus on embedding the Edge of Care and reunification strategies to support the continued reduction of children needing to come into care.
- Work is ongoing to increase free school meal take up within primary schools including social media promotions for themed days and working with unit managers to develop the new menu. A themed day calendar is being created for the new academic year which will offer alternative themed menus.

SUMMARY

What is this telling us about how we are performing across Gateshead?

The rate of referrals into social care has decreased over the last 12 month, as well as the rate of children becoming subject to a child protection plan and the rate of those becoming cared for. We have seen that the numbers of children coming into our care are more likely to be between the age of 10 to 15 (41%) compared to 31% the previous year. The % of Early help cases that were closed with an outcome of "all needs met" has increase from 60.79% in March 2022 to 61.04% in March 2023.

Children in the primary years continue to achieve well in comparison to their peers nationally. However, it is not as positive in key stage 4. Secondary schools are permanently excluding at a higher rate than historically.

What will we be doing in response?

Strengthening the edge of care response and intensifying work with families in crisis is a priority. Through the development and implementation of a reunification strategy, tackling the issue of reunification will ensure that children are not remaining in care for long than is necessary.

Future Direction of Travel and Expectations over the next six months

We anticipate that the rate of children in our care will continue to fall over the next 6 months as the edge of care strategies embed.

RESOURCES

As part of the budget approach and MTFS there is a clear plan of interventions to support a reduction in areas relating to placement costs for children in our care and the need for home to school transport - both areas of budget pressure. This includes a revised & refreshed Placement Sufficiency Strategy and a new SEND Strategy & Improvement Plan.

ENABLE ALL YOUNG PEOPLE AND ADULTS TO MAXIMISE THEIR CAPABILITIES AND HAVE CONTROL OVER THEIR LIVES – POLICY OBJECTIVE 2

Strategic performance	Baseline	Previous	Latest	Target		Operational performance	Baseline	Previous	Latest	Target	
Year 6: Prevalence of obesity (including severe obesity) Child and Maternal Health	38.5% (2019/20)	24.1% (2022/23)	No new data	Reduce		Households with dependent children owed a duty under the Homelessness Reduction Act Child and Maternal Health	To be set	New measure for 2023/24	216	Reduce	NEW

WHAT DO WE WANT TO ACHIEVE? – Our Outcomes

All young people are resilient, with good physical and mental health and wellbeing
Gateshead is a positive place in which everyone’s mental health and wellbeing can flourish
communities and networks

All young people are ready and appropriately skilled for the workplace
Everyone is able to be an active part of their community and feel connected to

CHALLENGES / AREAS FOR IMPROVEMENT

Strategic

- We recognise that the percentage of people receiving direct payments for social care in comparison to commissioned services (18.1%) is below the national average (24%). More work is needed to increase accessibility and availability of direct payments to meet national averages.
- The number of people awaiting a Care Act assessment or reassessment is still high but are routinely risked assessed for complexity of needs. Options are being explored to find both a short-term solution to reduce waiting list numbers but also consider the long-term solution to avoid a build-up of waiting lists in future.
- We have seen the total number of people in residential care reduce however the number of new admissions to residential care remains at previous levels.
- There remains a lack of suitable specialist accommodation for people with complex care needs.
- People with learning disability supported into suitable paid employment was 5.3% and this is down from this time in the previous year when the figure was 7.6 %
- Recruitment and retention issues continue to be a challenge across the Adult Social Care workforce.
- There is a large volume of Adult Safeguarding Concerns being referred into ASC, of which 46.4% do not meet the criteria for Safeguarding Duty to apply.

AREAS OF EXCELLENCE

Strategic

- A significant reduction in the amount of people waiting for availability of a care service.
- Capacity and performance have also increased in our in-house reablement services which has helped prevent people needing long term social care support.
- The overall number of people in residential/nursing care has reduced to its lowest levels since prior to the pandemic. This has resulted in a noticeable reduction in ASC’s expenditure on residential/nursing care.
- Integrated Adults and Social Care Services department have produced a new departmental strategy for the next 5 years and developed an action plan which will be reviewed and updated annually. The annual review of the action plan will feed into the publication of a Local Account for the service.

Operational

- Trainee models for Social Work and Occupational Therapy has brought in new recruits to our assessment teams and work for the service whilst undertaking a degree apprenticeship. This has helped with recruitment and capacity issues whilst growing our professionally registered workforce for the future.
- Our Trainee models have been recognised as national best practice by DHSC.
- The development of the Dementia Care specific apartments at Watergate Court has been recognised in the Nursing & Residential Care journal.
- The work the Council sponsors on Digital Inclusion has been nominated for a Dynamo NorthEast tech sector award.
- All of the Councils in house care services continue to be recognised as Outstanding/Good by the CQC.

ACTIONS

Strategic

- **Home First** - we want people to live as independently as possible with as little restriction on their liberty. We have a range of housing with care options that allow people to choose to live with their own front door, whilst having support on hand, however we want to do more:
 - continue to explore the existing and future needs of our population and develop further housing options which focus on the home first principle.
 - work closely with our housing & planning to future proof the offer with additional extra care facilities and other alternatives, including how we can use technology.
 - a Domiciliary Care market that focuses on enablement and reducing people's need for support, with direct payments more accessible to use as they wish to meet their needs.
 - Work with NHS and VCSE colleagues to ensure that the needs of Caregivers are fully embedded within Discharge processes.
- Work closely with our housing and planning colleagues to future proof the offer with additional extra care facilities and other alternatives, including how we can use technology.
- Have a vibrant domiciliary care market that focuses on enablement and reducing people's need for support, with direct payments more accessible for people to use as they wish to meet their needs.
- Work with NHS and VCSE colleagues to ensure that the needs of Caregivers are fully embedded within Discharge processes.
- Funding ringfenced for a direct payment support service. A project between finance and social care has started to implement access and increase direct payment support service.
- An LGA Peer review scheduled to seek to help the Council deliver good support to local people and assist with preparation for a CQC Inspection.
- NDTi development programme to commence which will include development support, research, change, leadership development and evaluation.
- Reablement - Sister Winifred Laver Promoting Independence Centre to open.
- A service restructure and creation of new heads of function will provide a greater support to manage and implement strategic change and policies.

Operational

- Implementation of the new adult social care system, Mosaic, continues to bring significant amounts of change across the area.
- The creation and appointment of CQC posts within the ASC Development Team will assist ASC in its preparation for CQC Inspection.
- The SAB is developing a system wide data set and there will be targeted interventions to address below threshold referrals.
- Relaunch of the Voiceworks programme will address the reduction in people with a learning disability supported into paid employment.

SUMMARY

What is this telling us about how we are performing across Gateshead?

The density of needs presented by people continues to increase. This complexity is requiring increasing levels of support and significantly impacts on budgets and the funding from adult social care required. Waiting lists for assessments and packages of care are monitored and robust risk management arrangements are devised and put in place.

What will we be doing in response?

We are working to address the waiting times for assessments. The increasing technological progress in assistive technology within in-house care services will be explored with the aim of reducing the numbers in residential care.

Future Direction of Travel and Expectations over the next six months

This is a challenging time for Adult Social Care nationally with many competing demands and priorities. The response to these challenges will be managed through the work we are doing and the longer-term impacts and emerging pressures around budget, staffing and complexity of need continue to be monitored and responded to.

RESOURCES

A zero-based budget review is being undertaken with a specific focus on Older People Residential Care, Hospital Discharge to Assess, Mental Health and Section 117 funding, Complex Learning Disability community packages, Transforming Care, transitions and Provider Services.

We are aiming to increase the number of people utilising a Direct Payment, carers accessing support, capacity in the commissioned home care service and reduction in residential care admissions.

WHAT DO WE WANT TO ACHIEVE? – Our Outcomes

All working age residents have access to good quality, sustainable work with decent pay and conditions

All people in low paid, low skilled jobs have opportunities to improve their skills base so they can more easily achieve personal progression and attain an improved standard of living

CHALLENGES / AREAS FOR IMPROVEMENT	AREAS OF EXCELLENCE	ACTIONS
<p>Strategic</p> <ul style="list-style-type: none"> The economic climate continues to make things difficult for many businesses. Government increased the support to be awarded to retail, hospitality and leisure businesses by increasing the rates discount for these businesses from 50% in 2022-23 to 75% in the current financial year. The business rates multiplier was also frozen meaning that many businesses would not have more to pay in rates for this year. Economic inactivity has fallen to 25% of the working age population in Gateshead but still remains higher than pre-pandemic levels and long-term sickness continues to be the primary reported reason. A new 'Universal Support' programme has been launched to help long-term sick and disabled people who face barriers to employment. <p>Operational</p> <ul style="list-style-type: none"> Rising cost of doing business resulting in delays in business investment activity. Strong demand for support from residents wanting to explore business start-up and self-employment - rising cost of living making people explore additional means of boosting income. Demand for business workspace outstripping supply. Disruption in provision of business support programmes due to transition from EU funding to UKSPF. 	<p>Operational</p> <ul style="list-style-type: none"> Expanded Strategic Account Management Programme engaging key employers to attract and retain investment and jobs and to promote responsible business practices. Business Centres operating with high levels of occupancy. Coordinated approach with LA partners to achieving a consistent NE UKSPF funded business support offer. 490 residents benefited from information advice and guidance to help them access good work and develop new skills. Over 500 residents took up the offer of ongoing, intensive employment support from Working Gateshead to help them prepare for, return to and progress in work. Launched the 'Live Well, Work Well' challenge fund to help VCSE organisations invest in tackling economic inactivity in communities. Helped 49 refugees start work by delivering specialised employment support designed to identify transferable skills, boost work experience and understand employer expectations in the UK. 	<p>Operational</p> <ul style="list-style-type: none"> Increase the rate of business formation particularly among underrepresented groups. Launch of UKSPF funded Business support programme. Capitalise on strengths in immersive technologies: Launch of IMMEX City Programme and Advanced Media Production Studio at PROTO. Help reduce the employment gap for more marginalised groups through specialist employment support for people with multiple barriers to employment and care experienced young people. Match labour market supply to demand by engaging employers and promoting the recruitment of residents disadvantaged in the labour market. Join-up local employment support with new regional and national employability programmes for refugees and asylum seekers.

SUMMARY
<p>What is this telling us about how we are performing across Gateshead? The wider economic conditions nationally continue to impact locally on many businesses and consumers. Economic inactivity has fallen but is still above re-pandemic levels.</p> <p>What will we be doing in response? Work is continuing to support all areas of the workforce including more marginalised groups with links being established between specialist local support for employment and regional and national programmes.</p> <p>Future Direction of Travel and Expectations over the next six months The strong demand for support from residents wanting to explore business start-up and self-employment will continue and areas where support can be targeted will continue to be identified and provided.</p>

RESOURCES
<p>Council lead for The Growth Fund, a £4.5m grant programme operating across Gateshead, Sunderland and South Tyneside to support business investment.</p> <p>Managed £11.8m UK Shared Prosperity Fund commissioning projects to increase businesses formation, resilience, and growth, tackle economic inactivity, improve skills and deliver community regeneration.</p>

WHAT DO WE WANT TO ACHIEVE? – Our Outcomes

Affordable childcare is accessible to those who need it

All working age residents receive a wage that considers the true cost of healthy living

Individuals & families are supported to have the best possible financial well-being to access debt and social welfare advice to maximise household income and improve financial management skills

CHALLENGES / AREAS FOR IMPROVEMENT

Strategic

- **Household Income Gap -** Using LIoN data and CACI Household Income data for 2022 you get average household income in the:
 - 10% most in need areas = £26,031
 - 10% least in need areas = £54,333
 - Gap = £28,302

Operational

- We have seen more residents in higher banded properties than ever before contacting the Revenues Team, to report that they are struggling to pay which is an indication of how hard the cost-of-living crisis is having on people who were normally able to pay without ever contacting the team.

AREAS OF EXCELLENCE

Operational

- Rent Collection – 99.51% of rent was collected up to the end of Qtr 2.
- The cost of living and energy cost increases have had an impact on tenants' ability to pay rent, leading to increased demand for debt advice, and support on issues such as emergency top-ups for prepayment meters. The Rent and Income Team (RAIT) continue to assist tenants to access to financial advice and support.
- 6,975 tenants are in receipt of Universal Credit (UC) as at the end Qtr 2 & 3,192 of these have an Alternative Payment Arrangement in place either because of their vulnerability or a history of debt/arrears.
- The DWP made a change at the end of Qtr 2 in the landlord portal that limits our ability to request direct housing costs on some accounts.
- 1,081 tenants are known to have benefit reductions for under-occupation and 93 are affected by the benefit cap.
- There have been 7 evictions this year for rent arrears.
- For a large part of the year resources were focussed on delivering financial support to our residents and the team paid out more than £13.5 million in Govt support to help our residents meet their rising energy and food costs.
- The team continues to work closely with Citizens Advice Gateshead in order to ensure residents receive any additional specialist support that they may need. The team were part of a data sharing pilot under the Digital Economy Act to help to reduce council tax arrears; HMRC provided employer information to the council to allow us to set up attachments of earnings. However, the number of matches was disappointingly low. The team will feed this back to central Government collection.
- Citizens Advice Gateshead have seen 1,339 clients in the 6 community hub venues, and a further 237 in outreach/drop-in venues.

ACTIONS

Operational

- **Council Tax Support -** this figure gradually increased over a period of time due to the knock-on effect of resources being used to deal with SIP and Energy Rebate Scheme. Management was aware of this earlier in the year and the resultant backlog of CTS claims. Performance has started to improve and now the service is staff fully following the appointment of three new processing staff at the end of February 2023.

SUMMARY

What is this telling us about how we are performing across Gateshead?

Overall, rent collection remains robust at over 99% of rent owed collected but national economic conditions are affecting families with enquiries for debt advise increasing and contact made with residents who previously paid but are now struggling.

What will we be doing in response?

Continue to work with external partners such as Citizen’s Advice to offer practical advice and support especially around the continued implementation of DWP changes and the impacts for those who are vulnerable.

Future Direction of Travel and Expectations over the next six months

Performance across all service areas continue to be monitored and support will continue to ensure that those who need advice support and guidance receive appropriate assistance.

RESOURCES

Household income data indicator is dependent on continued purchase of LSOA level income data (Current supply is from CACI Paycheck)"

WHAT DO WE WANT TO ACHIEVE? – Our Outcomes

Local communities and social networks are strong

All residents have access to a high quality, affordable, warm and energy efficient home

All communities have access to good quality natural environment

CHALLENGES / AREAS FOR IMPROVEMENT

Strategic

- **Crime:** iQuanta crime figures only available to Q1. Recorded crime is increasing in Gateshead. There has been a 6% increase in the number of crimes recorded in Q1 of 2023/24 in Gateshead, and an increase of 7% across the Northumbria Police Force area.
- **Housing:** The Repairs and Maintenance Improvement Plan Progress is updated regularly to HEHC. The purpose of the review was to improve productivity and performance, challenge convention and ensure that the form of the service is fit for purpose.
- With changes to staff designation in the Joint Local Agreement all trade operatives can move between the different areas of work as needed. New processes for each area have addressed this. Reports on progress will continue to be presented to HEHC OSC.
- More demand for housing from applicants with a high level of priority, including those with a homeless priority. Reduced availability of suitable single persons properties has led to increased use of temporary accommodation. Properties for larger households also rarely become available.
- There are more incidences of private sector tenants being served eviction notices, and then requesting a council house in the same area (as the family have support networks, or schooling considerations).
- “Managed migration” to UC of residents on legacy tax credits will commence in Tyne & Wear from January 2024. Cost of living crisis continues to have significant impact on council tenants’ ability to thrive and sustain tenancies.

Operational

- **Home Choice lettings system** implemented, with an issues log being worked through following go live. Most single person properties have been let directly to those in temporary accommodation or in need of direct lets. Fewer properties generally advertised as demand for direct lets is increasing.
- Vacant property levels remain high. Some property types are in less demand and more difficult to let, including flats reserved for those aged 50+ and older persons properties generally where access is poor. Options to reduce age restrictions for certain schemes are being explored. Two bed general needs flats are also becoming difficult to let once again because of affordability / benefit eligibility and under occupation benefit restrictions.
- **Rent arrears:** increasing linked to more tenants claiming Universal Credit & receiving benefits in arrears. DWP have recently added an extra step in the process when we request direct housing costs which now requires the resident to first confirm (in their online account) the amount we have asked for. This may lead to delays in setting up these payments.
- The Customer Involvement Team engaged with communities/residents about the **Tenant Satisfaction Survey** feedback, visiting 14 diverse community groups, gathering insightful feedback from them about their homes and neighbourhoods, which have been reported to GMT and other service managers. Themes of the feedback focused around; R&M, customer contact, comms and environment & neighbourhood, which reflected the key themes in the satisfaction survey feedback and highlighted that these remain issues for people.

AREAS OF EXCELLENCE

Strategic

- Assistance to tenants in response to rising energy bills and cost of living issues, working in partnership with agencies such as 2 Way Tenancy Solutions.

Operational

- **Decent Homes Standard** - The improvement in performance is linked to further increases in stock condition data for the Council's domestic properties and the completion of investment work in the 2022/23 Capital Programme.
- **Housing** - The number of properties vacant for 6 months or longer was 120 at the end of Quarter 2. (0.66% of the housing stock). Due to the need to reduce numbers in temporary accommodation (mostly single persons) the focus has been on letting suitable single persons properties rather than on the oldest vacant properties. To be on target, the number would have needed to be 30 fewer. 56 of the vacant properties were in the process of being advertised, offered and let.
- 32 are held in connection with major work, including structural work and work to ensure compliance and health and safety. (This includes 15 flats at Angel Court that we would expect to be able to let in second half of the year, and 7 flats at Melbourne Court where roofing work is required).
- 32 are undergoing general repair work.
- Q1 Update - There were 59 properties that had been empty for 6 months or more. This was an improvement from the start of the year when there had been 102. Of the 59:
 - 9 held pending decisions on future use (due to property issues); 31 still undergoing repair work; and 19 were Ready to Let at the end of the year and in the process of being let and 10 of these had been made ready in March.
 - 55 council properties had been vacant for 6 months or more at the end of Quarter 1.
 - 15 were available to be let and were going through the letting process;
 - 10 were held because of property condition or because they had been earmarked for a particular use; and
 - 30 were undergoing work. At the same point in 2021/22 there had been 96 properties vacant for 6 months or more.
- Rent collection of 97.31% at the half-year stage is very close to target of 97.50%. This is before the non-debit weeks in second half of the year when collection rate usually increases.
- Feedback from some of the sheltered schemes about their neighbourhood and estates has led to an estate tour to be undertaken by the Highways service, to understand the issues and impact they are having, directly on the customers.

ACTIONS

Strategic

- Ongoing contribution to council response to cost of living and energy bills.
- Review new allocations policy now that it has gone live and some of the impacts can be evidenced.

Operational

- Address Home Choice issues log.
- Respond to review of vacant property activity.
- Prepare for managed migration of tenants on legacy benefits to Universal Credit from Jan 2024
- Advice and support and referrals for tenants struggling to pay bills.
- **EVs** - 40 out of the owned 350 vehicle fleet are now electric, but there are 685 vehicles in use in total including the hires.

SUMMARY

What is this telling us about how we are performing across Gateshead?

Rent collection result at the half year stage is close to target despite the ongoing challenges of cost-of-living crisis and UC roll-out. However, rent arrears continue to increase and the further roll-out of Universal Credit planned for 2024 will increase arrears again. Management of property lettings has been challenging with the implementation of a new lettings system and an increasingly complex pattern of demand for properties. There has been a need for more single persons accomm to reduce use of temporary accommodation, whilst at the same time some other property types are becoming more difficult to let. Vacant property rent loss (3.46% of rent roll at half-year stage) still very high overall.

What will we be doing in response?

Specific support for tenants affected by managed migration to Universal Credit and a range of support measures for residents in relation to energy charges (see areas of excellence above). Review of void activity supported by external consultants carried out. Detailed actions to be developed. Recruitment for temporary additional capacity in lettings team to help with planned increase in vacant property repairs (i.e., more “Ready to Let” properties). Options to reduce age restrictions for certain schemes are being explored. Increasing the proportion of property adverts placed with preference to those applicants for housing with an assessed housing need. Registered Providers are being “onboarded” to new Home Choice lettings system. Housing Agreement (with providers) to be reviewed.

Future Direction of Travel and Expectations over the next six months

Rent collection is expected to remain a significant challenge. More vacant properties to be repaired and made ready to reduce vacant property rent loss and enable rehousing of applicants with housing needs.

RESOURCES

- Demand for debt advice is increasing; With partnership activity underway with Citizens Advice Gateshead.
- 111 new posts have been recruited to across Construction Services. This includes 53 new trade operatives. 6 new Building Technicians and 7 additional Customer Operations Staff. 6. This has enabled additional resource to manage the ‘front end’ of repairs.
- Recruitment of 2 x New Tenancy Assistants to support work to reduce vacant property levels.

ILL HEALTH PREVENTION – ANALYSIS

WHAT DO WE WANT TO ACHIEVE? – Our Outcomes

To prevent and end homelessness, in all forms in Gateshead

All preventable ill health is reduced, to end the gap in inequalities within the borough

All residents will be able to access flexible health and care support, when and where they need it

CHALLENGES / AREAS FOR IMPROVEMENT

Strategic

- Implementation of actions as set out for each of the four key aims within the Homelessness and Rough Sleeping Strategy.
- Delivery of the Homelessness and Allocations Review.
- Remodelling and recommissioning of homelessness accommodation and support.

Operational

- Lack of accommodation options and support for those who are homeless or at risk of homelessness including direct access into appropriate emergency and crisis accommodation.
- Increased length of time people spend in emergency B&B placements & in dispersed Temporary Accommodation due to system pressures.
- Significant overspend on B&B budget.
- No current 'gateway' system to manage and monitor supported housing provision, placements and throughput.
- Operational risks in sexual health have been listed corporately concerning the budget allocation on procurement, the agenda for change uplifts and the pressures being felt in the main service due to the impact of the Newcastle implementation of a new contract with a new (non-NHS) provider.

AREAS OF EXCELLENCE

Strategic

- Homelessness and Rough Sleeping Strategy agreed by Cabinet January 2022.
- Homelessness Charter launched in March 2022.
- Campbell Tickell contracted and progressing Homelessness and Allocations Review.
- Successful bids for Rough Sleeper Initiative (RSI), Rough Sleeper Accommodation Programme (RSAP) and Supported Housing Improvement Programme (SHIP) funding and funding allocated to improve response for victims of domestic abuse.
- Single homelessness accommodation programme (SHAP) funding bids submitted for over 25s- and 18–25-year-olds new build schemes.
- Completion of specialist and supported housing needs assessment and strategy and approval of both documents by Cabinet and Full Council in September 2023.
- Monthly partnership meetings established with housing providers of commissioned and non-commissioned accommodation to build relationships and monitor contracts and performance.

Operational

- Housing Safety - At Q2, 2023/24. 16,618 properties required a gas service and all 16,618 properties have a valid gas safety certificate. At Q2 - 16,734 properties required a gas service and one was outstanding at the end of September. This property entered the warrant process and has now been serviced as at 14.10.22.
- Proactive approach to homelessness prevention.
- Excellent partnership working established linked to homeless pathway for offenders and ex-offenders; delivery of private rented sector funded project for ex offender, and prevention pathways for hospital discharge and mental health.
- Strong partnership arrangements with Oasis Community Housing supporting those at risk of homelessness and rough sleeping with multiple or complex needs= low numbers of rough sleepers.
- Fortnightly rough sleeper action group – coordination of the rough sleeper pathway in Gateshead, including case management.
- Delivery of existing RSI and Next Steps Accommodation Programme (NSAP) and RSAP funded accommodation programmes.
- Coordination and delivery of regional armed forces outreach service.
- Domestic abuse outreach work, including security and sanctuary measures preventing homelessness and increasing safety.

ACTIONS

Strategic

- Implementation of actions outlined in Homelessness and Rough Sleeping Strategy, which sets out our four key strategic aims with associated actions to tackle homelessness.
- Completing actions within the Homelessness and Allocations Project Plans including remodelling and recommissioning of homelessness accommodation and support and developing a homelessness Gateway.
- Implementation of action plan resulting from Temporary Accommodation review.
- With the addition of additional investment in Substance Misuse Services to support the 10-year drug strategy, developments continue to add capacity, diversity, and quality to the drug and alcohol treatment system in order to improve outcomes for those experiencing difficulties with substances in Gateshead.
- We continue to work collaboratively with NHS and wider partners on our comprehensive multi strand approach to reducing smoking prevalence. Working towards our aim of achieving an adult smoking prevalence of 5% by 2030.

Operational

- Development of a Gateway model and system.
- Reviewing approach to temporary and emergency accommodation including operational practice.
- Operational Service Plan 2023-25 underway including - review of policies and procedures, development of dashboards, integrating new projects into existing pathways.
- Creation of a Fixed Term Homeless Prevention Officer post supporting the development of the Refugee Pathway.
- Continue to embed and develop partnership working.
- The Integrated Sexual Health Service is undertaking research with UKHSA to understand the relatively recent and worrying increase in syphilis case – to be published next year.
- The Council is publishing a sexual health survey (Nov 23) to understand current opinions, issues, and unmet need in sexual health.

RESOURCES

- Earlier intervention can help to reduce health inequalities faced in later life and improve health and wellbeing outcomes, which can help to reduce demand for services.
- Two of the Priority Based Transformation Areas as part of the budget approach are ASC and Housing Improvement which will directly inform this priority objective.
- £1.2m PHWB savings 2021/22 of which £0.300m has been delivered after savings mitigation (£0.900m). Long term proposal is to transform Leisure & Library services to better meet local needs.
- Difficult challenges for Leisure services in year and 2022/23. Projected loss of Fees & Charges income is £4.2m due to impact of the pandemic.
- Locality Working pilot underway in Birtley. In short term it will support early intervention with longer term goal of improving life chances and reducing dependence on council services.
- Homelessness funding confirmed from Housing Prevention Grant for the next two years (£563,834 2023/24 and £594,390 2024/25). Annual/bi-annual grant allocations make long term investment decisions difficult.
- Successful funding bid for accommodation for ex-offenders for 2023-25 - £156,670 over two years.
- RSI funding secured until March 2025 (joint bid with South Tyneside) Gateshead allocation - £1.85m over three-year period.
- RSAP funding secured to 2024 to deliver 4 units (in partnership with Tyne Housing) with support for rough sleepers with complex needs. This is additional to the 15 NSAP properties already provided through a previous successful funding bid.
- SHIP funding of £574,096 secured for a three-year period to March 2025.

SUMMARY

What is this telling us about how we are performing across Gateshead?

The homelessness and rough sleeping strategy will support the Council and partner agencies to respond to the needs of those facing homelessness and rough sleeping by addressing the underlying causes of homelessness and providing appropriate accommodation and support. Ill health prevention by its nature considers the longer-term impacts of health and tackling issues that can result in poorer outcomes over the course of a lifetime. This means it can take a while for changes at population level to be seen.

What will we be doing in response?

Delivering on the four key aims and associated actions within the new Homelessness and Rough Sleeping Strategy, which include remodelling and recommissioning accommodation and support as well as developing a gateway to support any new model. This will continue to be delivered in 23/24 through the Homelessness and Allocations Review. We are continuing to develop our response and therefore the full impact in the longer term still needs to be determined.

Future Direction of Travel and Expectations over the next six months

A new Allocations Policy and Tenancy Strategy have been developed as part of the Homelessness and Allocations Review and were approved by Cabinet in October 2022. We have also launched Gateshead's own choice-based lettings system 'Gateshead Home Choice' in June 2023. We are recommissioning supported accommodation and developing a 'marketplace' and 'homelessness gateway'.

ORGANISATIONAL HEALTHCHECK – BALANCED SCORECARD – SUMMARY OF PERFORMANCE

ENSURING THE ORGANISATION IS IN THE BEST POSITION TO DELIVER COUNCIL PRIORITIES – WHAT DO WE WANT TO ACHIEVE? – Our Outcomes

Employees

- Employee satisfaction – Gateshead Council a great place to work
- Diverse & inclusive workforce
- Maximising Employee Potential – opportunities to learn, develop and aid succession planning the Council (right first time)

Finance, Governance & Risk

- Revenue Budget, Capital Budget; HRA; Income received, Risk Housing); Compliance; Partners

Customer Experience

- Thrive – reduce the number of residents vulnerable or just coping
- Resident’s satisfaction with Gateshead and Gateshead Council
 - Improved customer experience through better contact with

External Assessment

- External Audit; Regulators Assessment (Ofsted, CQC,

CHALLENGES / AREAS FOR IMPROVEMENT

- **Data Protection** – there has been increase in breaches reported to DPO team (66 at this point last year, 123 this year), linked to increased profile of DP team and better awareness of staff:
 - 2 email address error linked to autocomplete resulting in sensitive data being shared with unconnected parties; 1 posted data to wrong address (typo in house number); 2 paperwork left behind at location visited by council officers; 1 Occ. Health record lost within dept, subsequently found and wouldn’t have been reportable; 1 social media post by employee which ICO deemed not a breach as business rather than personal information; 1 allegation of employee misconduct, not proven on investigation.
- There were 40 Chief Executive Reviews completed - 15 were not upheld with 25 upheld and compensation offered; £14,117.88 compensation agreed for 20 people. The value was determined by the Services in accordance with the circumstances of the complaints and the Local Government and Social Care and Housing Ombudsman’s’ guidance.
- Despite improved online functionality there is still a growth in volumes of incoming calls reflecting growing demand for Council services. Overall, the number of incoming calls has increased by 18,000 (7%) since the same period in 2022/23.
- Average call duration is longer than in the same period in 2022: calls to Repairs, Benefits, Revenues and Customer Services are typically 30 to 90 seconds longer.
- The team received an additional 2.5k telephone calls in the first 6m of this year in comparison to last year.
- Historically most payment enquiries were from residents living in properties in the lowest council tax band A whereas now we regularly receive contact from residents living in bands B, C, D and E who are finding it hard to maintain their council tax instalments.
- The cost-of-living crisis is also limiting the ability for people to pay for care. In terms of priority debts, a service user is more likely to pay for a service which can cut off (energy) than a service the Council has a duty to provide.

AREAS OF EXCELLENCE

- **DPO** – all areas highlighted in the audit report have now been met.
- There was 1 final decision made by the Ombudsman following the investigation of 11 complaints against the Council which was upheld – a significant decrease from the previous year.
- For most residents contacting the Council for transactional services, online has become the channel of choice. Typically, it is now the norm for well-designed online services to achieve a 70-90% uptake in comparison to the telephone. There are now over 100 processes that have a consistent customer experience via self-service which are also supported via the contact centre.
- There has been a 13% increase in the volume of online payments compared to the previous period last year. The strategy continues to be to make online payments available for all payment processes. New online payment processes have been added for Planning, building control and licensing over the last 12 months which has aided the increase of take up.
- Telephony – improvement has been seen in the answer rate within ASCD.
- A higher proportion of near misses is positive and a sign of a safety culture. Work related incidents only. Data also now includes schools, which was reported separately for 2023/24.
- No HSE enforcement action received for the last 6 months.

ACTIONS

- The Council is currently assessing when and how to bring forward a 'borough-wide' survey. This would incorporate how we currently work in partnership with our key stakeholders.
- Proposal to undertake an employee survey between Jan and March 2024, subject to approval.
- **DPO** - proposal to turn off autocomplete function in Outlook, 5 service specific training sessions delivered since May 2023.
- A large proportion of the staff who haven’t completed GDPR training are casual staff and those without network logins. WD are actively working with services to ensure they understand the need for all staff to complete the module (whether this is the eLearning module or a handbook) and how this can be facilitated.
- Standard Debt recovery procedures due to restart this year after having been paused during 2020/21-2022/23.

SUMMARY

What is this telling us about how we are performing across Gateshead?

The cost-of-living challenges, high interest rates and economic climate are impacting many residents and businesses. Although the % rate of collection has fell, in cash terms we have collected more as have an extra £7m in council tax to collect in the current financial vs 2022-23. Residents who received council tax support saw their council bills reduced by £50 during 2022-23 but following a reduction in government funding this amount reduced to £25 in 2023-24 which means that residents with the lowest incomes now have more to pay.

What will we be doing in response?

We continue to issue reminders, court summonses and other recovery documents promptly when a resident fails to pay and have already issued more recovery documents in 2023-24 than in any of the previous 3 financial years. The Revenues team remain ready to offer help and flexibility to residents to help them to pay, we also continue to refer residents to Citizens Advice Gateshead for further specialist advice. Recovery action continues to be taken promptly against businesses who do not pay, and our team remain ready to help any business that needs extra support or flexibility to pay their business rates.

RESOURCES

- For 2023/24 the baseline revenue budget is £281.885m. Qtr1 was 1.107m over 0.39% Qtr2 is 2.775m over 0.98%. This is well within the +/- 5% tolerance.
- In year savings for 2023 is £13.084m, we have achieved £12.394m. This equates to 94.7% of savings targeted.
- The MTFS position assumes all prior year budget savings will be achieved going into 2024/25.
- The intention is to deliver an outturn within budget. Senior management will ensure proactive budget management through regular monitoring will continue to take place with accountable intervention with the aim of containing spending within budget.

TITLE OF REPORT: **Adult Services Care Homes Model**

REPORT OF: **Barry Norman, Service Manager – Ageing Well Services
Commissioning, Performance and Service Development,
Integrated Adults and Social Care Services.**

Summary

Adult Services Care Homes support some of the most vulnerable people in Gateshead often normally at their latter stages of life. As we have an ageing population along with a growing rate of people expected to be diagnosed with Dementia, we need to ensure we have the right services available to support people both at home for as long as possible, as well as within a Care Home setting for people with more complex care and support needs.

Purpose of the Report

1. To update the Committee regarding the Capacity and Demand planning for Adult Social Care services, and our work on our 'Home First' approach, that will result in a different delivery model for Care Home provision in Gateshead.

Background

2. Since the pandemic and the introduction of the Hospital Discharge Guidance, Gateshead has followed a 'Discharge to Assess' approach to support people leaving hospital in a timely manner. The impact of recruitment and retention challenges has also limited our ability to get people home first, resulting in the overuse of Care Homes beds in the system.

Current Position

3. Gateshead continues to follow the Discharge to Assess approach but has now been able to plan resources for 2023-24 and 2024-25 and invest in required services to support people at home.
4. Recruitment and retention have improved across most markets that has also allowed additional capacity to focus on moving people from short-term services to

long-term services as and when required. This has improved flow and reduced waiting lists for support.

5. Our Contracts for Adult Care Homes are being updated with the aim to have a new Contract Framework in place in early 2024-25. The aim is to help shape the market to ensure they can support those in need of long-term care who can't be supported at home.
6. The Market and Sustainability Improvement Fund has also allowed the Council to invest in markets, following the completion of the Cost of Care work carried out in 2022-23.
7. Whilst the Home First approach will see an overall net reduction of 250 placements in Care Homes over the next 2 to 3 years, there will continue to be a need for Care Home provision to meet the needs of some of our most vulnerable people.
8. Existing providers and their Care Homes have a large part to play in supporting the Gateshead system, but providers will need to look amend their business models and focus on higher end needs in the future such as complex Dementia, Nursing and EMI Nursing.
9. To ensure we have the capacity to support people at home longer, we need to look at not only the workforce requirements, but also technology and housing offers. The workforce within Care Homes will need to evolve and require additional training and skills to manage an overall more complex cohort of residents within homes.

Impact

10. As outlined in the presentation, a different model for Care Home provision is needed in the years ahead as people are supported at home first and for longer. Whilst there will still be a need for Care Home capacity, we will continue to see people moving in for the later stages of their lives with more complex needs than the current average.
11. Nursing provision is an area that we will need to grow to meet needs, but recruitment and retention of good quality nurses is a wider system challenge. We will need to work in partnership with our ICB colleagues and likely look at a regional approach.
12. Occupancy levels within some Care Homes are likely to reduce as we refer less people into long-term bed base support. Private funders and out of area placements are semi out of our control, but we are likely to see an oversupply issue in the next 12 to 24 months.
13. This may mean that some homes de-register, alter registrations for different categories of support or have a planned closure. The team will continue to monitor and work with providers to support any proposed changes in the future.

Summary

14. Adult Care Homes will need to adapt to support the system with our Home First Approach. Our new Contract and framework will support the initial changes required by the market, however, we need to shape the market over a number of years to support an adapting change in cohort.

Recommendations

15. Care, Health and Wellbeing Overview and Scrutiny committee is recommended to:
- (i) Comment on the content of this report and the work undertaken by the service to develop a different approach to support adults in Gateshead.
 - (ii) identify any areas for further scrutiny.

Care, Health and Wellbeing Overview and Scrutiny Committee – Adult Care Homes Model

Page 35

Barry Norman

Integrated Adults and Social Care Services

05.12.23

Care Home - Overview

49 Care Homes in Gateshead covering Adults

19 are registered for Nursing Provision, with 3 focussing on Rehab and Complex LD/MH

2 Promoting Independence Centres, soon to be close with new Centre opening soon

Page
36

PIC's focus on both preventing hospital admissions and supporting timely hospital discharges for people

2 Homes Respite Centre's for younger adults

Remaining homes mainly focus on long-term care

Small LD homes have been going through a de-registration programme

Capacity & Demand

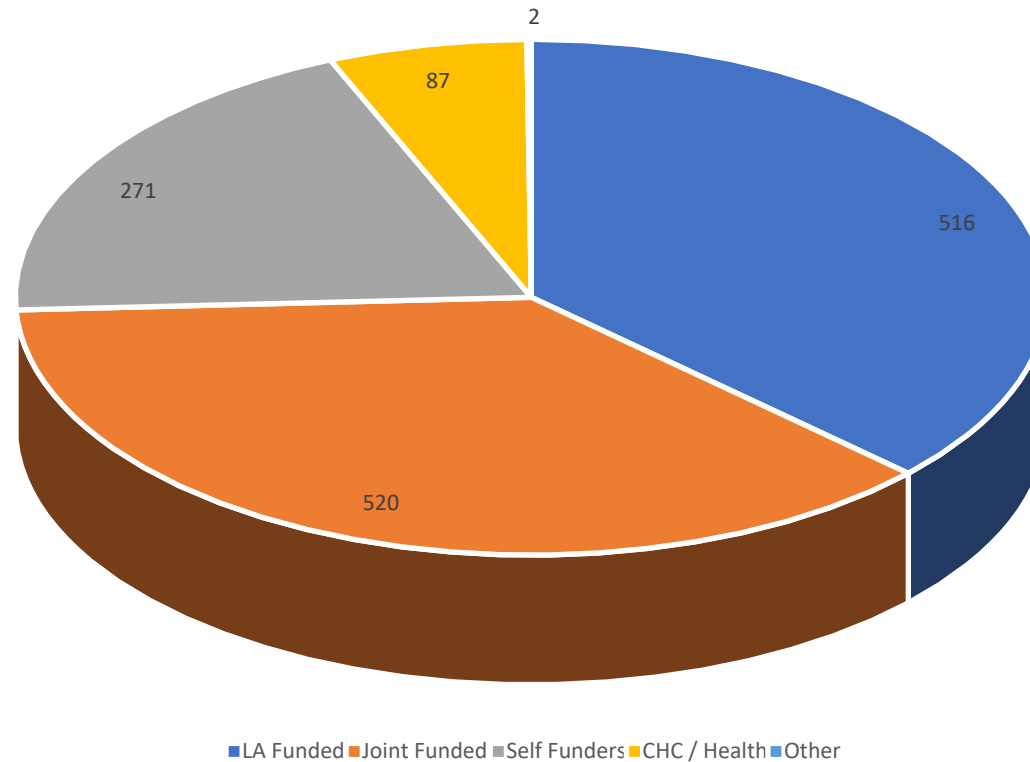

- No plans to place younger adults into long term Residential Care
- Still a Need for emergency and short-term placements but minimal numbers per year
- OP Capacity currently outstrips Demand with over 150 vacant beds
- We will continue to see the number of General Residential placements reduce
- A small increase of Nursing beds is projected over the next 3 years
- Demand is on the assumption that Community Services (PRIME, Community Discharge Service and Long-term Home Care) have the workforce to meet demands
- Home First approach is our main focus

Older Persons – Category Breakdown

Page 38

Older Persons – Funding Stream

Winter 22/23

Page 40

- Didn't have the Community Capacity to meet needs
- Long waiting lists for people awaiting services
- Short-term provision blocked whilst awaiting capacity to move people
- People being moved into short-term care home provision will a proportion becoming permanent
- Gateshead had an average waiting list of over 100 people, peaking at 167

Where we are now – Winter 23/24

- We have invested MSIF into Home Care and Care Home Markets
- Workforce has started to grow for the first time Since June 2021
- Investment into an increased Community Discharge Service up to the end of March 2025
- New PIC opening soon with an additional 10 beds for the system
- Waiting list is now in single figures
- Improved flow between short-term and long-term services
- Reduction in placements in Care Home provision
- Occupancy levels in OP Provision falling to pre-pandemic levels

New Delivery Models

- The cohort of residents within Care Homes is going to change
- People with either not need to go in or go in at a later stage of their lives
- Continued to see less demand for younger adult provision
- Focus on Home First approach by investing in workforce, technology and Housing Solutions
- Care Home workforce will need to develop greater skill set
- Move to more Nursing and Dementia provision
- Investment from the Market in the environment, equipment and technology
- Work with Health partners to support delivery

Next Steps

- New Contract being co-produced with providers and key stakeholders
- Procurement Framework to be introduced in early financial year 2024-25
- Work with Market to adjust service offers where appropriate, and shape investment
- Continue to monitor reductions in placements following our Home First Approach
- Work with Health partners to consider changes to contracts and pathways for wrap-around support in the future

TITLE OF REPORT: Extra Care Provision

REPORT OF:

Barry Norman and Steph Downey
Integrated Adults and Social Care Services.

Summary

Extra Care Settings allow people to be supported within their own tenancy with Care & Support available, 24/7. The development of new extra care settings can be a long process so by reviewing lessons learnt on current schemes, can help us shape future schemes. Due to our ageing population, current housing stock and financial challenges, 3 new schemes need go live in the coming years to meet current and future demand.

Purpose of the Report

1. To update the Committee regarding the opening of Watergate Court Extra Care in April 2022 and the impact to date. The report also outlines our future demand for additional extra care and considerations of future developments.

Background

2. Gateshead were one of the early LA's to build Extra Care settings and supported the development of 5 sites in the early 2000's. Our newest scheme, Watergate Court in Lobley Hill, is our first setting with the Dementia focus which has allowed those who previously may not have thrived in extra care, the ability have both their environment and care & support needs being delivered outside of a Care Home setting.

Current Position

3. Watergate Court opened in 2022 and whilst a large site, demand was high and was fully occupied within 12 months.
4. A wide range review has taken place to get a better understanding of the Outcomes being achieved at Watergate Court now that tenants have been in place for up to 18 months.

5. There have been lessons learnt, mainly positively, that will help us support and influence future developments with best practice being adapted.
6. Housing LIN were commissioned to carry out a Housing Needs survey with a key focus area on Supported Housing needs. Projections for future needs have been outlined with a development strategy being worked on
7. To meet current and future demands, a further 3 Extra Care sites will need to be developed over the next few years, which will support our Home First approach and continue to support people outside of long-term Residential Care.
8. Environment, technology, and workforce will be key for any future developments and consideration of impacts to other settings such as Sheltered Accommodation and Residential Care will be needed.
9. People choosing Extra Care before or when care & support needs are minimal will help with our prevention approach and reduce demand on Adult Social Care Services. With the right settings in the right locations, we will be able to encourage people to consider Extra Care housing as a positive step.
10. Additional consideration will also be given to younger adults who can also be supported with within new settings or housing close by, such as a Core & Cluster model.
11. The Market and Sustainability Improvement Fund has also allowed the Council to invest in markets, following the completion of the Cost of Care work carried out in 2022-23.

Impact

12. As outlined in the presentation, 435 additional units will need to be developed by 2040 to support our ageing population and not making unnecessary Care Home placements.
13. Extra Care settings are key for us to control and avoid costly Care Home placements as well as having the right model to support people at home longer
14. There may be impacts on Sheltered Accommodation stock and Residential Care Cares in the medium to long term, depending on location and desire for people to move homes.
15. Dementia Care will be a growing need so Dementia only settings may have a wide impact on EMI Residential Placements, which will put additional pressure on the Care Home sector.
16. This may mean that some homes de-register, alter registrations for different categories of support or have a planned closure. The team will continue to monitor and work with providers to support any proposed changes in the future.

Summary

17. Watergate Court has been a huge success story so far and we want to learn from the process followed pre and post development. The next 3 Extra Care schemes will not only support people in the right location but are crucial for the Council to support our challenging budget position to target care within the community. We want to have a co-produced approach to future developments and will target working with key stakeholders, including people in local communities to help shape our approach.

Recommendations

15. Care, Health and Wellbeing Overview and Scrutiny committee is recommended to:
 - (i) Comment on the content of this report and the review undertaken by the service on Watergate Court and our future plans for additional Extra Care settings to support adults in Gateshead.
 - (ii) identify any areas for further scrutiny.

Care, Health and Wellbeing Overview and Scrutiny Committee – Extra Care Provision

Barry Norman and Steph Downey

Integrated Adults and Social Care Services

05.12.23

Watergate Court

Page 50

Watergate Court Extra Care

- First new Extra Care scheme in Gateshead for several years
- Residents starting moving in, in 2022
- People moved in from a range of different backgrounds – including a small number who moved out of residential care
- Many people/their families feel the person would have been in residential care now if not living at Watergate Park
- Research undertaken regarding the learning in respect of Watergate Court
- Specific focus on the Dementia element of the service as this is the first dementia specific extra care offer in Gateshead

Watergate Court Dementia Care

- Recognition that some people with dementia need a different model
- Does not mean people with dementia can only live in specialist provision
- But provides an option for those who would struggle in more traditional extra care
- Enhanced and more tailored support
- Additional security doors and quiet lounges
- Ability to support people overnight in communal areas if needed
- Demand for the flats was very high – it was the first wing fully occupied

Watergate Court Case Studies

Page 53

- The research has identified a number of positive benefits for people including:
 - Improved nutrition
 - Enhanced company and friendships developing
 - Improved cognition
 - Reduction in medication
 - Improved mobility
- There have been some findings about areas that could improve and will inform future developments such as:
 - Technology
 - Activities
 - Utility bills needing to be better arranged

Extra Care – Future Demand

- Extra Care Housing for older People is a self-evident tried and tested model throughout the UK. There are currently 7 schemes in Gateshead with the first one opening over 17 years ago.
- The current demand for Extra Care Housing outweighs the availability resulting in waiting lists and people being moved into inappropriate settings such as Residential Care. Due to the growing population and projected future demands, the Council estimates an additional 435 units of Extra Care Housing over the period to 2040.
- Need to Improve the quality of care and provision available in community settings.
- Based on data, national reports, impact from the pandemic, previous experience of local authority commissioning and placement funding practice, it is reasonable to assume that up to 20% of placements into residential care could be substituted with living in housing with care (extra care housing).

Gateshead Perspective

- Age – Population living longer
- Gender – 2/3rd of tenants are women
- Demand – 324 units, Watergate Court (82 units)
- 100% Nomination rights
- Tenancy requirements – moving from traditional Sheltered accommodation
- Models of supported accommodation evolving

Future Builds

- Need to learn lessons from Watergate Court and other new builds across the Country
- All sites should be Dementia friendly throughout
- Consideration of potential 100% dementia scheme
- Three new builds over the coming years to meet demand
- Locations to be identified by Needs data and consideration of current housing/residential care settings
- Housing and Commissioning Plan to be developed before the end of the financial year, taking into consideration the recommendations from the Housing Lin report and Strategy

TITLE OF REPORT: **Work Programme**

REPORT OF: **Sheena Ramsey, Chief Executive**
Mike Barker, Strategic Director, Corporate Services and
Governance

Summary

The report sets out the provisional work programme for the Care, Health and Wellbeing Overview and Scrutiny Committee for the municipal year 2023/24.

1. The Committee's provisional work programme was endorsed at the meeting held on 12 September 2023 and Councillors have agreed that further reports will be brought to future meetings to highlight current issues / identify any changes/additions to this programme.
2. Appendix 1 sets out the work programme as it currently stands and highlights proposed changes to the programme in bold and italics for ease of identification.

Recommendations

3. The Committee is asked to
 - a) Note the provisional programme;
 - b) Note that further reports on the work programme will be brought to the Committee to identify any additional policy issues, which the Committee may be asked to consider.
