

Newcastle Public Priorities

1,278 residents were surveyed across the local authority area; of these, 479 (37%) identified at least one problem in their neighbourhood.

The chart below shows the top ten public priorities for Newcastle in descending order, along with the score for each priority:

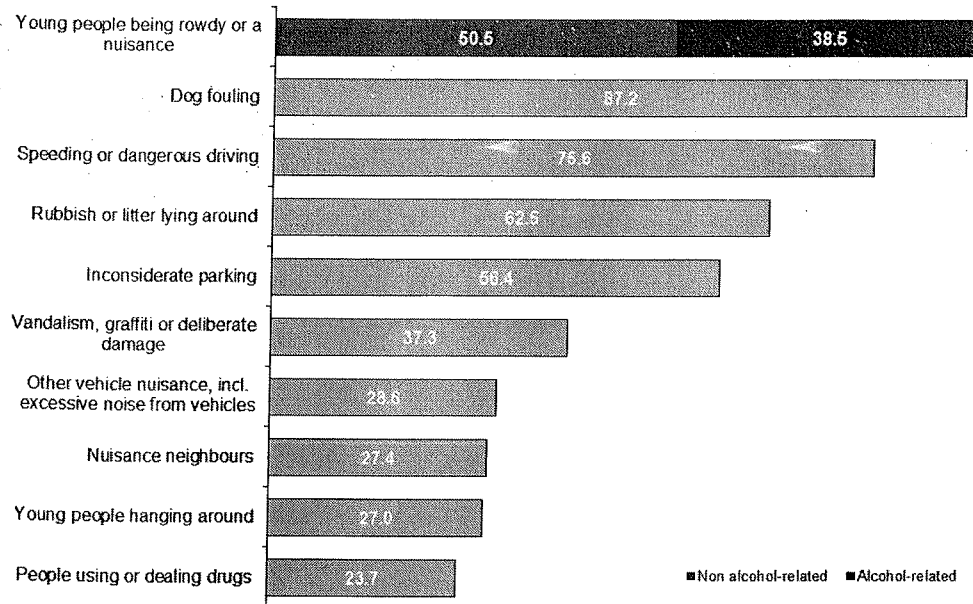

* Problems are given a score of 1 to 3 depending on how big a problem the residents say they are. These are combined to give the overall problem score and weighted to take account of the population.

Northumberland Public Priorities

1,485 residents were surveyed across the local authority area; of these, 435 (29%) identified at least one problem in their neighbourhood.

The chart below shows the top ten public priorities for Northumberland in descending order, along with the score for each priority:

* Problems are given a score of 1 to 3 depending on how big a problem the residents say they are. These are combined to give the overall problem score and weighted to take account of the population.

Beverley

Further info as below

Patrol Station Lane and St Georges Park for youth ASB as part of problem solving plan for youth related ASB. The skateboard park in particular attracts a large group of older youths who intimidate legitimate users of the park. Alcohol is prevalent amongst the group as cans and bottles are often discarded. The local residents complain of excessive noise levels after 8pm

Residents in Mitchell Street also complain of youths accessing the old R.O.B site which is derelict (probably not suitable for the Horses as its full of broken glass and so on) These will be the same youths

The Birtley based NPT will be day shift tomorrow so will be able to provide a bit more context re certain youths – Extension 64267 or 64266

Dave – for info. Can we also see if the Mounted Section can park in the bottom yard of the Fire Station as a bit of a one off

Thanks

Mick

Subject: FT CG - allocation of mounted section - ASB Station Lane/St George Park C4E1

Good afternoon,

Following the recent FT CG meeting the mounted section have been allocated to C4 with regard to ASB in the above areas.

Would it be possible to provide a briefing document or contact details for someone who could provide the relevant information required in relation to this tasking. I am currently in the process of allocating the mounted section resources for the forthcoming weeks and will let you know the dates allocated to your area command.

The mounted section officers will be attending you area command tomorrow (26th July TOD 1400-2300), so any further information would be appreciated.

Regards

A/Sgt 8564 Bev Crain
Mounted Section
