

The Gateshead Fund Impact Report 2018

Your Year

Welcome to the Gateshead Fund Impact Report for financial year 2017-2018. This was the first full year of delivery of the Fund through the Community Foundation. In total, 39 grants were awarded to a diverse range of organisations working in Gateshead.

As would be expected, the majority of grants were to support organisational capacity, helping to improve organisational skills, provide training and support development of business and fundraising strategies to aid growth and sustainability. There were also significant capital and refurbishment grants, as well as some smaller grants to support delivery of activities.

Birtley Community Partnership received £9,800 towards salary costs, which will support development of their Business Plan. Gateshead Older People's Assembly received £9,921 towards additional staff costs which will enable potential revenue streams to be explored and will have the added value of promoting the group more widely through community activities. Teams & Bensham Community Care were awarded £4,302 to train staff and volunteers, which will ensure their qualifications are up-to-date and that new staff are appropriately trained. Pelaw Youth & Community Centre were supported to ensure that, despite the closure of the organisation, the facility would be transferred to another organisation for continued use.

Capital grants were prominent, with eight organisations receiving a total of £54,767; this included Clara Vale Village Hall Association and Christ Church Felling for completion of essential refurbishment works which will ensure the facilities can be used by their respective communities. Gateshead Redheugh 1957 were funded to purchase a tractor, which will enable effective maintenance of their playing fields leading to an increase in activity during the year. Ryton Cricket Club were awarded £9,250 to install accessible toilet facilities, which will enable the Club to offer more opportunities for people with disabilities.

Jewish community groups were well represented, with NEETZOTZ awarded £10,000 towards mental health interventions for young people in the community and The DASH Group awarded £4,935 to support families from the Orthodox Jewish Community while they are undergoing hospital treatment. The Jewish Community Council of Gateshead were awarded two grants: the first to support their service delivery and the second, an exceptional award, to support the salary costs of the Development Trust Manager, an important role within the organisation and the community as a whole.

There were 67 applications across the three Rounds in 2018, compared to 64 across the two rounds delivered by the Community Foundation in 2017. Despite the reduced number of applications, total grant making was broadly similar, illustrating the value of implementing a new application process and guidelines. This made the Fund both more accessible and reduced the number of poor quality or ineligible applications received.

Two grants awarded were not able to proceed: 22 Sheds did not accept their Round 3 award as they were unable to commit the level of resources they felt the Rethinking

Coatsworth Road project required. There was a serious issue with Blaydon Shed, resulting the grant being withdrawn. The £10,000 grant was repaid in full, following a thorough investigation by the Community Foundation.

The Fund's delivery was incorporated into the Community Foundation's grant making processes, maximising the opportunities for funding in Gateshead. During the year, we referred unsuccessful Gateshead Fund applicants to our other funds, resulting in five applications being considered by the Community Foundation. This resulted in a grant of £7,360 for Gateshead Hatzola, which had been deferred from both Round 2 and Round 3.

The tables in this report present detail of all grants made during the year: Round 1 awarded 15 grants totalling £134,982, Round 2 awarded 15 grants totalling £99,363 and Round 3 awarded nine grants totally £67,351. This figure does not include the two grants that were subsequently withdrawn, and the total grant amount awarded for 2017-18 was £321,696. Compared with 2017's total grant making of £360,065 across 62 grants, there has been a tighter focus on making larger grants to those experienced organisations that are well placed to meet community needs.

Monitoring received from funded groups is presented later in the report; this is largely unedited, providing feedback in the groups' own words. Together with the selection of thank you letters received, it provides compelling evidence of the Fund's impact.

Finally, 2018 is our 30th birthday and we wanted to find a way to engage with partners to celebrate the role philanthropy and giving plays in our lives. We are very proud therefore to announce GeNErosity – a festival of Philanthropy and Giving in the North East November 2018. This will be a unique celebration of the region's philanthropy and generosity. Designed as a series of events, debates, and performances, GeNErosity shines a light on the best in all of us. Delivered in partnership by Newcastle University and the Community Foundation Tyne & Wear and Northumberland, it is the first event of its kind in the region, celebrating and highlighting how we all play our part.

We look forward to sharing more details about the programme of events as the year progresses.

Research Project

In October 2017, we delivered the Gateshead Fund Research Report recommending two strands of activity: 'Laying the groundwork on which to grow philanthropy in Gateshead' and 'Activities, mechanisms and vehicles for Gateshead to benefit from increased philanthropy'.

Laying the groundwork included researching and promoting the issues facing Gateshead, promoting VCSE solutions to those issues and giving the VCSE sector the tools and support to take advantage of philanthropy. Activities, mechanisms and vehicles included recommendations for promoting a range of giving options, not just The Gateshead Fund: using existing funds as match funding to encourage giving, seriously considering an endowment fund to ensure there were funds for the future and producing a guide to signpost anyone looking for funds or wanting to give to the same central place.

The research was presented to the committee and a VCSE stakeholder event was delivered on 2 February 2018 to present the findings of the research and collect feedback from the sector on the recommendations. The feedback informed plans for future activity by the team at Gateshead Council and the future of The Gateshead Fund. The coming year will see changes to delivery of the main grants programme, renamed The Gateshead Thrive Fund, with two main grants rounds delivered, as well as a Community Grants Programme aimed at smaller community groups and awarding grants of up to £1,500. Both strands will target organisations and projects that link to the Council's five pledges within its five-year strategic approach, 'Making Gateshead a Place Where Everyone Thrives'.

Vital Signs

A fully updated [Vital Signs report](#) covering the whole of North East England was published online in November 2017. Behind it were four in-depth research reports covering [Northumberland](#), [Tyne & Wear](#), [County Durham](#) and [Tees Valley](#). Now for the first time we can offer philanthropists and charitable funders a comprehensive picture of local needs, and suggested priorities, to inform their charitable giving.

Vital Signs spotlighted many examples of inspirational giving, showing how it has enabled voluntary and community groups to make a real difference in their communities. But it also flagged up four areas of unmet need, where the generosity of our donors is particularly vital to help individuals and communities rise to the challenges they face.

Poverty emerged as the primary issue affecting our region. The North East remains one of the poorest regions in the UK, with high rates of benefit dependency and low paid employment. Over 20,000 children are reliant on foodbanks, whilst 17% of the adult population is in serious debt. The signs and symptoms of such deprivation are easily detectable in South East Northumberland or urban

30% of people living in poverty that find work remain in poverty

areas in Tyne & Wear. But poverty can also exist hidden in small pockets in prosperous market towns, or as a blight on the lives of individuals in isolated rural communities experiencing a lack of local services, poor public transport and high fuel costs. It is a problem that can only become more marked as public services continue to shrink, and which undermines community cohesion and local quality of life by fuelling social problems such as low educational attainment, unemployment, poor health and crime. Poverty on this scale is perhaps not a problem that can be solved by local philanthropists alone, but it is one where, with their support, charities can transform the prospects of individuals and their families.

The suicide rate in Tyne & Wear and Northumberland is 30% higher than average

A second major area of need was **mental health and wellbeing**. Our region does not do well on national wellbeing measures. Alongside higher than average rates of mental illness, we identified a major concern about the prevalence of self-harm. Our region is largely bucking the downward national trend in this regard, with a marked increase in suicide rates across Tyne & Wear and Northumberland since 2008. Whilst mental ill-health can affect people from all backgrounds, and all stages of

life, those experiencing disadvantage seem particularly vulnerable. Of course, much work in this area is funded by government and should not be duplicated with charitable funding. But there is a role for good quality “soft services” such as mother and toddler sessions, practical advice and support, self-help groups and volunteering and befriending schemes. These can reduce the harm to mental health and wellbeing that may be caused by

problems such as childhood deprivation, unemployment, homelessness, long-term ill-health, alcohol/drug dependency and social isolation in rural areas.

Diversity and inclusion was a third area of need that Vital Signs flagged up as important to address. For our communities to prosper we need to harness the talents of all our people and maintain social harmony. Yet some of our minority communities – ranging from disabled people (23% of the population) to older people (17%) and black and ethnic minorities (5%) – experience substantial disadvantage and social exclusion. The problem can manifest itself in areas such as work, where unemployment is higher for groups such as black or disabled people. At worst it can be expressed as hate crime, which in our area rose by 202% from 2014 – 2016. As well as supporting these communities to address the challenges they face, philanthropic funding can help build the strength of self-help organisations and so enable them to become better at accessing other sources of funding.

Reported hate crime doubled between 2014 and 2016

Community Foundation spend per head in Gateshead is 22% higher than in the rest of Tyne & Wear

Funding “cold spots” was our final Vital Signs priority. The voluntary sector has more capacity to secure charitable funds in some parts of our area, and donors often start out with a natural preference for funding projects near to home. As a result, Northumberland and Newcastle are better served than other parts of our area. In the past funding from government and national funders have helped ensure that other areas do not miss out, but now those sources of support have largely disappeared. Our

intention is to encourage donors to consider whether they might support more projects in areas like North Tyneside, Gateshead, Sunderland and, South Tyneside. The latter area is a priority because Vital Signs research revealed that the level philanthropic spending there through the Community Foundation is very low, despite it being one of the most deprived areas within our patch.

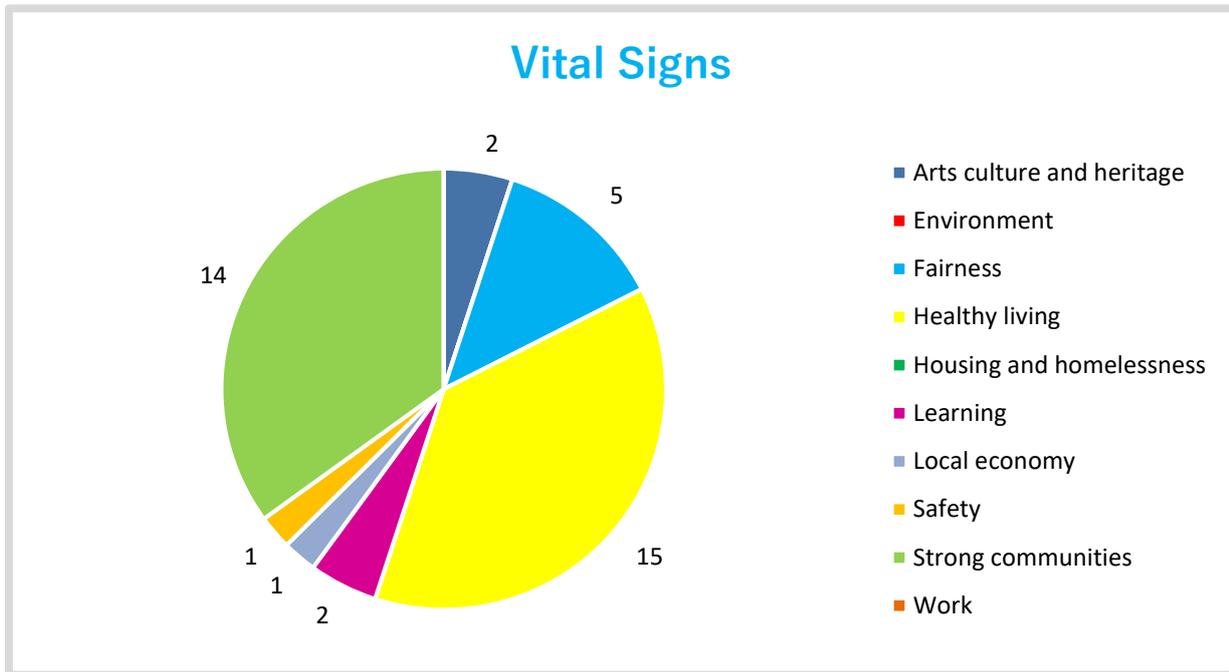

Vital Signs covers the full range of philanthropic causes, including areas such as the arts, culture and heritage and the environment not mentioned above. Whatever your priorities for charitable giving, we hope you will find it informative and that it will inspire your giving.

You can read our Vital Signs reports in full, and comment on them, at www.communityfoundation.org.uk/vitalsigns

Grants breakdown - Vital Signs

The following graph shows the breakdown of your grants across our Vital Signs areas

The Gateshead Fund - Budget for 2017/18

The table below sets out the funds available, and is followed by information on how it was distributed to community organisations during the year.

Financial Summary	
Gateshead Fund 2017/18	£334,000
Capacity Building Fund 2016/17 carry over	£117,000
Funding returned	£7,984
Total Gateshead Fund budget 2017/18	£458,984
Gateshead Fund component breakdown	
Main Grants funding available to organisations	£435,784
Talented Athlete / Sporting Individuals small grants	£13,200
Gateshead Volunteers Month 2017 small grants	£10,000

Grants awarded in 2017/18

Grants awarded Round 1	
North Regional Association for Sensory Support (NRASS) NRASS Deaf Awareness & Budget Training Project	9,000
Blue Sky Trust Think For Yourself	5,000
Parish of Bensham and Teams Parochial Church Council St Chads Church - Inspired Futures	9,500
Gateshead Redheugh 1957 Being Self Sufficient/New Tractor and Attachments	10,000
Soundroom Community Music Project Developing the capacity of The Soundroom	9,531
Whickham Fellside Youth Football Club Watergate Park facilities - widening the impact	8,800
Jewish Community Council of Gateshead 'Survive - to Thrive'	10,000
Teams & Bensham Community Care Strengthening Social Care for Vulnerable Older People	4,302
Josephine and Jack Project Josephine and Jack In Gateshead	9,050
Gateshead Fell Cricket Club Refurbishment to Improve the Condition of Existing Facilities	10,000
Gateshead Youth Organisations Council Gateshead Youth Council	10,000
NEETZOTZ Ltd. Moving into Mental Health	10,000
North East Young Dads and Lads Project CIO Foundations for Fatherhood	9,999
Birtley Community Partnership The Renew and Sustain Project	9,800
Clara Vale Village Hall Association Refurbishment/electrical rewiring Clara Vale Village Hall	10,000
15 Grants	134,982

Sports grants: Round 1	
Talented Athlete Scheme – 12 grants	2,600
Individual Sporting Grant Scheme	0

Grants awarded Round 2	
Gateshead Clubhouse Sustaining Gateshead Clubhouse	4,500
THE DASH GROUP ('THE DR ADLER SUPPORT & HELP GROUP') DASH Group - 'Forging Forward'	4,935
Winlaton Library Volunteer Association Running Winlaton library	8,150
Birtley Community Association Development of social enterprises	9,100
Gateshead Older People's Assembly Development of diversified income streams	9,921
Leam Lane Community Association Strengthening the organisation	6,680
Ryton Cricket Club Installation of Accessible WC facilities	9,250
The Nest Café & Community Rooms CIC Pop-up Nest	1,000
Gateshead Community Rowing Club Gateshead CRC Growth and Expansion	7,200
Christ Church Felling Christ Church Hall Refurbishment	7,317

Leam Methodist Church Updating heating, safety and security	10,000
The Millin Charity Local Women Local Enterprise Gateshead	9,923
9 Grants	67,351

Sports grants: Round 3	
Talented Athlete Scheme – 17 grants	4,000
Individual Sporting Grants Scheme	0

Gateshead Volunteers' Month – June 2017

Total grants awarded – 34 grants	9,581
---	--------------

Gateshead's fifth Volunteers' Month took place in June 2017. The aim of Volunteers' Month is to:

- celebrate the positive contribution made by existing volunteers
- recruit more volunteers and create capacity through volunteering
- raise awareness of the benefits of volunteering
- enable local people to contribute to their community
- confirm Gateshead's reputation as a national leader in volunteering
- improve health and wellbeing
- deliver the aims of the Gateshead Volunteer Plan

This year, Volunteers' Month also aimed to support groups to celebrate 'The Great Get Together initiative', founded in 2017 by the family and friends of Jo Cox, which aims to bring communities together and celebrate all that unites us.

In total, £9,581 was allocated to 34 groups and organisations across Gateshead; during the month many events were held, including volunteer celebration events, garden parties, community litter picks, picnics and a pizza day, all of which recognised the commitment made by Gateshead residents.

Throughout the month, 106,189 hours were recorded on a volunteer totaliser, which equates to a £1.38m contribution to the Borough's economy and representing a 5% increase, compared to 2016.

The table below shows the pattern of grant spend across Gateshead from the Fund.

Ward	No. grants primarily benefiting the ward	Grant spend primarily benefiting the ward	Indicative total spend*	Indicative total spend, per capita*
Crawcrook and Greenside	1	£10,000	£16,249	£1.85
Bridges	2	£14,935	£21,877	£2.24
Lobley Hill and Bensham	5	£44,634	£51,914	£5.06
Dunston and Teams	2	£14,302	£20,759	£2.28
High Fell	-	-	£6,884	71p
Ryton, Crookhill and Stella	1	£9,250	£15,355	£1.79
Deckham	-	-	£7,078	71p
Felling	1	£500	£7,039	76p
Chopwell and Rowlands Gill	-	-	£6,566	71p
Birtley	2	£18,900	£24,821	£2.98
Blaydon	1	£10,000	£17,148	£1.70
Dunston Hill and Whickham East	-	-	£6,460	71p
Saltwell	-	-	£7,508	71p
Wardley and Leam Lane	1	£10,000	£15,855	£1.92
Windy Nook and Whitehills	-	-	£6,837	71p
Chowdene	-	-	£6,375	71p
Lamesley	-	-	£6,794	71p
Low Fell	1	£10,000	£15,994	£1.89
Pelaw and Heworth	2	£18,720	£24,791	£2.92
Whickham North	-	-	£5,818	71p
Whickham South and Sunnyside	-	-	£5,720	71p
Winlaton and High Spen	1	£8,150	£14,041	£1.69
TOTALS	19	£159,391	£311,883**	£1.14
*Includes a proportion of Gateshead-wide expenditure totalling £143,298 in 99 grants calculated on the basis of ward population. Excludes £20,000 of returned grants.				
** Variation from the actual awarded figure due to rounding				

The Community Foundation uses per capita grant expenditure as a measure of the geographic distribution of funds. The figure for Gateshead as a whole was £1.14 per head, but expenditure in some wards varied substantially from this figure; this is largely attributable to the number of grants awarded in each ward.

Of the ten wards that did not received funding this year, six had a combined total of 11 grants in the previous year. Perhaps more of an issue is that the remaining four wards which did not benefit from a grant this year also did not benefit last year. There may be a case for a more targeted approach in Chowdene, Lamesley, Whickham North and Whickham South and Sunnyside.

News from the people you have supported

Comfrey Project CIO	
Project:	Windmill Hills Centre Community Asset Transfer
Grant amount:	£10,000

“This grant has played a very important role in the development of The Comfrey Project at a particularly challenging, but exciting at the same time, period for the organisation. Despite the fact that the proposed long-term asset transfer of the Windmill Hills site from Gateshead City Council to The Comfrey Project had to pause due to the uncertainty of the future of the site, which is currently under public consultation, we were still able to use the grant in a constructive way, with a host of updated outcomes, which will feed into the development of the organisation for years to come.

The community consultations we carried out with the help of this grant were very helpful in getting acquainted with our new “neighbours” and find out from locals and locally-based organisations about the main issues people face here, as well as the strengths of the local community and its assets. It gave us a clearer picture of how we could fit in and what we could offer.

The consultations also gave us an understanding of the image people have about the Comfrey Project. We were surprised to find out that although we have been active for well over a decade regionally, people in Gateshead are not particularly aware of our aims and our work. What's more, organisations in particular seemed to find us an insular organisation, difficult to engage with, which might perhaps have come from our prior capacity and running from within small allotments from most part of the year. It became obvious that networking and changing perception around The Comfrey Project had to be top priority.

The consultation also informed preliminary architect’s drawings for the transformation of the site, which even though we are not able to take forward and use for that purpose, they are still being used to draw inspiration for our future vision, and to find temporary solutions to develop the site in a way that we would not incur irretrievable costs.

Moreover, by having completed our organisational restructure in becoming a CIO we now have a structure more appropriate for our size which will take away some administrative burdens. Finally, we proceeded in changing our constitution so that we demonstrate clearly to the local council and organisations our commitment to ensure that the Windmill Hills site remains a place for the benefit of the whole community.

All the above steps have helped reshape our focus in being more community focused, and we are set in transforming the Windmill Hills site into a vibrant community hub which will facilitate skills building, positive action and creativity, while fostering intercultural dialogue and nurturing the rich, diverse heritage found locally. Our ability to form partnerships and hence become more sustainable as an organisation is another one of the benefits from taking such outward-facing approach.

However, the above processes took its toll on our resources and capacity to fundraise, and as a result, in autumn 2017 we had to make the difficult decision to make all our then staff members redundant.

Following that we went on to reconfigure our staffing structure and the priorities for our organisation and with the help of this grant we recruited a Development Co-ordinator, a decision influenced by our determination to put partnership work at the core of our present focus and future identity. Working in partnership is also strategic as a step to widen our reach to support more client groups, by engaging with organisation they are familiar with. We appreciate the cultural change for existing service users, too, so starting by inviting certain interest groups in a more organised fashion is a way to ease the process and make everyone appreciate the mutual benefits.

The rigorous networking in the past three months has informed our priority-setting, in order to offer relevant and meaningful services for the locals, taking us in directions that we were not putting enough emphasis on previously. For instance, we are now including anti-poverty and self-sustainability (focus on “grow-it-yourself”, “food waste management”, cooking skills, upcycling, entrepreneurial activities, accredited courses, hunger school holiday clubs, collection of sell-by-date products from super markets and more) as core deliverables, in order to support the agenda of the local council to fight poverty issues in Gateshead.

Furthermore, this grant has enabled us to do some important groundwork to improve our volunteer engagement and co-ordination through a bespoke post new for the organisation, that of the Therapeutic Horticulture and Volunteer Co-ordinator. The role for the first time puts our focus on building a community of skilled and dedicated volunteers at the very core of our strategic aims, recognising the power of volunteering for an organisation to become more efficient and cost-effective, all while offering another avenue for locals to take part and help steer positive action.

The feedback and scrutiny of current volunteering procedures has led to the beginning of redefining the training and support we offer our volunteers, with particular focus on skills building and progression. We are an accredited City and Guilds provider and we are looking to make use of this accreditation far more in the future, by developing a range of courses that we can deliver to service users, volunteers and the community alike.

Overall, it is fair to say that this grant has seen us take a huge learning curve, the lessons from which we are now in the process of formalising into a long-term delivery, financial and fundraising plan for the years 2019-2022.”

Bensham and Saltwell Alive	
Project:	Animating Assets in Bensham
Grant amount:	£10,000

“The grant has made a significant difference to BS Alive and many local residents, who have had opportunities to get together to discuss and act on the things that are important to them, for example:

The community mapping and activities run by 22 Sheds produced posters drawn by local children, asking people to care more about the area, i.e. "Please don't litter" & "Don't let your Dog Poo!". The posters were attached to lampposts around the community and attracted a huge amount of positive comments on Facebook and Twitter. One resident posted that she had collected three bags of rubbish on her school run that morning. These initial Tweets and posts have continued and have resulted in a group of residents that want to regularly get together to do activities that improve the community.

For one of the events, we were able to combine some Big Lottery Funding we received and ran a small community Festival which engaged most of the BAME communities in the area. Importantly for the first time ever the Jewish Community engaged with the festival as contributors and participants.

The engagement with local organisations has also been beneficial and strong partnerships and collaborations have been made across the area, especially between BS Alive and St. Chad's church, which has a number of quite ambitious projects currently running. A particular conversation with Business in the Community has referred BS Alive back to The Community Foundation for support through the Community Ventures Programme - Leadership Development.

The preparation of the project/business plan has been helpful as it has focused ideas and provided an opportunity to consider what can realistically be achieved. Perhaps one of the most surprising results has been the high level of ambition BS Alive Trustees have for the longer-term sustainability as well as their plans to support local people. This seems to have grown as the Trustees have become more confident in their roles and in the organisation.

Oasis Aquila Housing	
Project:	Valuing Volunteers Project
Grant amount:	£10,000

“As a result of the grant, Carers Trust Tyne & Wear (CTTW) has a successful volunteer management programme in place. This enables them to easily recruit more volunteers and monitor their activity. Fundraising volunteers have benefited both the organisation and its beneficiaries by raising funds enabling the organisation to develop its services. Volunteers themselves also benefitted from the experience, support and training. By looking into the possibility of offering carers counselling from volunteers in an environment they are familiar with, CTTW will enable them to continue their caring duties while receiving the support they need. Service users themselves are more attracted to the prospect of volunteering now that there are support mechanisms in place for volunteers, and volunteering will enhance their health, wellbeing, skills and job prospects and contribute in turn to the strengthening of the community. CTTW is also in a stronger position now to apply for further funding which will enable them to expand and provide even better access to support for carers.

Alongside this, Oasis Aquila Housing (OAH) has more volunteers, both project based and fundraising. This means that our service users benefit from the support and skills provided by volunteers and our staff have additional support with running their projects. For example, we launched a new project in February 2018 with only 2 members of staff therefore the volunteers who have been recruited are providing much needed support for the staff on busy days and ensuring that the service users feel welcomed and cared for at all times. Ex-service users are gaining experience through volunteer placements with us, for example one woman is volunteering as a peer mentor having previously been supported by our domestic violence service. Current service users are benefitting from employee volunteers teaching them life skills such as digital skills which they need when applying for benefits and employment.

The grant has also enabled OAH and CTTW to form a strong working relationship, so they can provide advice and support to each other on a longer-term basis.”

Skills4work Gateshead	
Project:	Members Development & Parent Support Network Group
Grant amount:	£10,000

“The funding has allowed us to offer detailed support to new members, to work with new partner organisations on an individual basis and also for the development of the whole group. The admin support funding allowed us to focus on the development of this role and to develop the young man who is an ex-group member to attend a variety of training courses and meetings on behalf of the charity which has developed his CV but most importantly developed his self-esteem and the change in the past 12 months in this young man has been recognised with all involved in the charity and also the local community who take an active interest in our work. The funding has allowed us to have new partnership links and the opportunity to support the young people more than ever before in a holistic manner to make positive changes and the learning of work and life skills.

We have attended all the Gateshead SEN meetings and gave our input to the changes in post 16 and the complex nature of changes in disability benefits from our members personal experiences. Due to the dramatic loss of funding to Gateshead SEN schools the focus of the agendas were the present young people the schools are working with, and we decided therefore to develop our networking with existing partners and new partners to engage and develop the opportunities for over 18 young people with a range of learning needs in Gateshead.

All our young people have a detailed Individual Learning Plan and SMART target setting. We have supported an additional 4 new members to the charity who have complex mental health concerns, we have therefore worked with their parents, professional partners and have had the opportunity to undertake holistic 1-1 support with all concerned. Not looking only at the DWP criteria, but also supporting with medical concerns, housing and change management support plans. 2 of our young people have progressed into paid employment and as you can see from the attached case study this has had a huge impact not only on the young person but also the parents. We have worked with 14 young people during this project.

The support offered via the new parent networking group and 1-1 support project has had very positive results for the parents involved. This is the first time they have had the opportunity to come together as parents/unpaid carers as they have never had the opportunity before as their son/daughter has attended main stream school or SEN school but found it difficult to engage and discuss their concerns and fears for the future. At the start of the programme we discussed the information they required and invited guest speakers and local professionals to come along and offer advice and support networks for the present and future. Please find attached the comments and the list of guests we have invited to the monthly meetings.

The 1-1 sessions have allowed the opportunity to support at professional meetings regarding benefits and medical support and to provide that forward planning for the future. The parent engagement group has had a huge impact on their personal development and a platform for self-help and sharing concerns in a relaxed but very supportive environment of trust and understanding.”

Men's Shed Chopwell. (Formerly Winlaton Men's Shed)	
Project:	Core costs and extension of workshop facilities
Grant amount:	£1,769

“The grant has given Men's Shed Chopwell the means to run regular sessions over the past year. The purchase of new equipment has enabled the group to provide a stimulating and safe environment for people, mainly men, to meet. Members come from Chopwell and the surrounding villages and are able to socialise and engage in practical activities that are of benefit to the whole community. A number of members have a disability, most live alone, and this point of contact has proved important for them.”

During 2017 there were 46 workshop sessions and around 30 people attended workshop activities. Older men are a particular challenge to encourage to join. Word of mouth appears to be the most effective form of publicity, although we have provided presentations to the local 'Live at Home' scheme. We are currently looking to provide more publicity locally.

A limiting factor has been the size of the workshop. To help overcome this, we are constructing a storage shed for materials, to free up workshop space. The Shed has been able to work with other local groups to mutual benefit. These include the Chopwell Regeneration Committee, Chopwell Park Group, Chopwell Drama Group, Chopwell Community Centre and St John's Church Chopwell.

By engaging with other groups, the Shed has become well known in the village and 'The Shed' continues to work to increase its membership.”

Advance	
Project:	Building a better life for men
Grant amount:	£200

“We attended the Teams Festival, and several others from Teams Community Centre were also in attendance to vouch for this! There was little interest from the Festival, however during June we had our usual four meetings, so the room hire cost was the same, so the underspend on the flyers was put towards this outgoing.”

The grant has made a difference to the volunteers as we have not had to worry so much about funding ourselves through June. Over the last few weeks, we have had several new members, who are finding the group useful, so we are encouraged to continue to provide the facilities for the group.”

Friends of Chopwell Park	
Project:	Picnic in the park
Grant amount:	£273

“We were hoping for a turnout of around 200 people but in actual fact the estimated turnout far exceeded our expectations and the estimate was around 600 to 650 people. Everyone loved the photo display of our heritage and are still coming to the pavilion to spend time and look through the photos.

We managed to bridge the generation gap which as a result now has all ages taking time to share stories with each other. Also the children have started taking pride in their park meaning anti social behaviour and vandalism has decreased.”

Gwk Woodshed CIC	
Project:	Volunteer Celebration Day
Grant amount:	£300

“We took 15 volunteers on a fantastic trip to Gibside where they enjoyed an educational tour of the grounds, participated in some activities and had afternoon tea and drinks at the café. Although the majority of our volunteers are Gateshead residents, many of them have never visited Gibside or even knew that it was there. They were surprised by what they saw when they arrived at the site and they took a keen interest in the history of the site and the overall size of the place.

We had four members with physical disabilities, which meant that they couldn't get around the site like everyone else; however, the staff and minibus driver were extremely helpful in getting them around as much of the site as possible.

They had a thoroughly enjoyable day and it was great to reward our volunteers and have some time away from the usual workshop activities. I for one enjoyed the conversations that we had in just getting to know one another and seeing the delight in the volunteers having such a fantastic day.

The funding allowed us to reward our volunteers and celebrate the achievements that the woodshed has made over the last 12 months. It has helped with team morale, helping people to understand the different backgrounds and needs of one another and taking time to stop and talk away from the busy workshop. The volunteers were extremely thankful for the visit and it has shown in an improved team togetherness since our visit. The four individuals with physical disabilities particularly enjoyed feeling part of the team.

Volunteers have seemed a lot more willing to get alongside each other and support the activities that we do since our trip to Gibside.”

Silverline Memories	
Project:	Volunteer Celebration Event
Grant amount:	£264

“A wonderful evening was spent at Boulevard Newcastle. Meal, drinks and entertainment were enjoyed by the volunteers and a gift of appreciation was given.

Our volunteers were delighted with the evening and were pleased to be recognised in this way. They felt appreciated and valued and by telling their friends and family about their event we were pleased to receive other enquiries for volunteering opportunities as a result.”

Strathmore Road Methodist Church

Project:	Community Football Sessions for Residents of Pipe Bridge Estate
Grant amount:	£300

“The community football sessions to date have benefited 69 people and 18 volunteers have been involved in delivering the events. We have recruited one local lady volunteer who is helping with post session refreshments and three local boys aged 16 to 17 who are helping with delivery of the football sessions. We still need to recruit more local adults willing to take the project forward and hope that the two events rescheduled in to august will assist with that objective.”

The participants are really enjoying taking part in the football sessions and relationships with the volunteers and between local residents are beginning to form.”

Wayout in Gateshead (WinG)	
Project:	WinG Volunteers Outdoor Celebration and Promotion Activity
Grant amount:	£300

“The funded event enabled interested new people to visit and find out about the role and function of a WinG volunteer. The information open day allowed people to ask questions and speak directly to existing WinG volunteers. The celebration volunteer walk was very well attended and greatly benefited all those who attended. It was a chance for volunteers to meet other WinG volunteers not previously known about, chat and share experiences of volunteering.

During the planned WinG Volunteer celebration walk 11 individuals attended the walk which involved walking part of the Gateshead Red Kite Trail in the Derwent Valley area.

The celebration walk culminated in some light refreshments at Lintzford Garden Centre and enabled participants to be rewarded with a light refreshment and thus show a token of appreciation to all those who have helped over the years with WinG. All were grateful to the funder and commented how they had enjoyed the day. The event was a success and was an excellent opportunity to give something back to volunteers for all their time and energy given to volunteering with WinG.”

Gateshead Youth Organisations Council	
Project:	The Great GYC Get Together
Grant amount:	£300

"We ended up holding a different event to that which was planned. We were pipped to the post booking Gibside so decided instead to hold it at Saltwell Park. We also realised that as half of our volunteers were celebrating Ramadan, we discussed holding the event in the evening but felt it inappropriate to have people travel from across the Borough late at night with their children in tow. We also considered briefly but discounted holding the event with the people who were observing Ramadan taking their picnic home with them. This was all planned and decided by the young people who attend Gateshead Youth Council (GYC) in accordance with our ethos.

We eventually picked the first Sunday after Eid which was Sunday 2nd July 2017. We were able to hold an event and invite all of the members of all of our groups along with their friends and families. This was such a treat for us as we usually struggle to get everyone together. The volunteers, over the proceeding three weeks planned menus, arranged for people to shop and bake, they also contacted Greggs and were allowed to pick up the end of day stock on the Saturday. This saved a considerable amount of money. We struggle with funds for travel but as the asylum seekers live on £5-7 a day, bus fares are a luxury they can ill afford so being able to refund everyone's travel levels the group and all of the attendees who arrived by public transport were refunded. We were very conscious of making sure that no one attending felt like they were singled out so we made this blanket policy. This has now been adopted across the organisations projects.

During the course of the picnic the young volunteers organised games and activities and ensured that attending adults were all looked after. Some were attending their first event and were unsure of how things worked. Our volunteers looked out for this and engaged people into conversations groups. For two asylum seekers in particular the event was successful....two separate families realised they lived in the same streets as two other attendees whose children attend GYC regularly. They have reported since popping to each others homes for a cup of tea. We at GYC are delighted as the asylum seeking women are particularly isolated and really need to find friends in the non asylum population in order to integrate fully.

We had worried that the few older teenage refugees might be bored but they quickly got into the role of helping to organise games for the children and also took part in a Saltwell Park treasure hunt we had designed for the children. Our volunteers were all awarded certificates for their work over 2016-2017 and a number of the newer volunteers awarded for their participation. All of the young people left with an award.

We couldn't be happier with this event. Even the weather was nice!"

Mount Community Association	
Project:	Eighton Junction Garden - Community Cleanup
Grant amount:	£277

“We organised a community garden volunteer event, the purpose of which was to recruit new volunteers, invite new people into our space to enjoy, clean up the garden, do some planting, and create some new furniture. The event was publicised locally with around 300 flyers and we offered a free barbecue to the volunteers.

The event was attended by around 50 people across the afternoon/evening, of which 25-30 were new, including a range of ages, and new visitors who were not aware of our plans for a community garden. We have cleared a lot of rubbish from the site, and also managed to create three new wooden benches to encourage enjoyment of the (currently fairly sparse) garden.

We have made some good links from the event, finding a number of new and enthusiastic volunteers who have good ideas about using the community centre and garden for new events. Although the event was focused on the garden, we met two local people who were very keen to use the hall itself for music and food events. We struggle to resource new activities although know there is demand so this was very exciting for us.

We have commitments from 11 people to join further activities in the garden and four young people also expressed an interest - although we need to explore how to involve the latter.”

Peace of Mind	
Project:	Celebrating the contribution of volunteers
Grant amount:	£276

“The awarded grant enabled us to successfully organise the volunteer celebration event, which was held on the 10th of June 2017 and we had 14 volunteers, three Management committee member and 19 local people at the event. After receiving the certificates almost every volunteer gave a little presentation telling us how volunteering has improved their self confidence and it has also raised the awareness about the issues faced by local community.

One volunteer said, “My asylum status doesn't allow me to work or take up further education but volunteering with Peace of Mind has shown me that there is much more I can achieve and I am learning new skills every day”.

Another volunteer said, “Volunteering with Peace of Mind has given me a hope and something to look forward to”.

This was a great event as we had a few local people turning up who are interested in volunteering with Peace of Mind, One of them is a Lecturer in Newcastle University. The event was also attended by Gateshead Youth Council and that was fantastic. We all enjoyed it very much, This became a social event as well as the celebration of volunteers' hard work. As you know the volunteers work very hard and they don't get a chance to meet like this throughout the year because they are planning and running the sessions and events so it was a nice get together, everyone was very pleased.”

Gateshead Redheugh 1957

Project:	Teams Festival hosted by Gateshead Redheugh 1957
Grant amount:	£300

“The Teams Festival this year was a great success with lots of activities and things to do on the day. We had an average of around 800 people who enjoyed the entertainment and the football tournament on one of the hottest days of the year. The football tournament consisted of 16 teams of under 10s and all teams played four games and the feedback was very encouraging, especially with the weather being so hot. We were able to promote the festival through the advertising with the leaflets and posters and provide volunteers for the day which helped the festival to run smoothly with the numbers who turned up on the day.

Other activities on the day were bouncy castles, birds of prey display, face painting and also a veterans display of old army memorabilia which was very popular with the younger generation. Also on the day we had live bands doing a 45-minute slot of various types of music and also marching bands from the naval cadets which was again very popular on the day.

The festival also had lots of different stalls from different organisations in the Teams area to show people and residents what is available in the area to help build relationships and values. Overall the day was a great success between the different organisations and residents alike and now look forward to next years event.”

Barmoor Hub

Project:	Trained up, SkilledUp
Grant amount:	£2,490

“In total, 36 people have completed training; most of the participants came from villages local to the centre, although this year we attracted two groups from Gateshead Visible Ethnic Minority Support Group who meet in Bensham Grove Community Centre, this was unexpected due to the travelling distance.

There was no take up for the Health & Safety training; however, two volunteers at Barmoor Hub did take part in Health & Safety Training through their respective employers. One volunteer completed the Gateshead Council online Safeguarding course and one volunteer did the course through her University Course. One volunteer completed the Emergency First Aid course through their employer rather than attend the Barmoor Hub course. People who previously attended Food Safety now do the training online and 17 completed the Emergency First Aid, although one person was unable to attend due to hospital admission. A further 14 completed the L2 Food Safety.

The L2 Food Safety and Emergency First Aid gained the most attention and everyone who took part reported feeling positive about their experience and confident about putting their learning into practice.”

Gateshead Older People's Assembly

Project:	Volunteer and Community Garden Celebration
Grant amount:	£280

“This funding has allowed us to create a welcoming environment for visitors to our community garden

Our event was held on 21 June at Deckham Village Hall. There were approximately fifty attendees, made up of our volunteers, partners, café customers, and members of our social groups. Our manager gave a speech to launch the garden, our activities and volunteering co-ordinator presented our volunteers with certificates, and everyone was invited to enjoy a buffet catered by our community café before going out and visiting our new dementia-friendly community garden.”

Skills4work Gateshead	
Project:	Making a Difference
Grant amount:	£300

“We ran a community café and decided to dedicate Tuesday 6th June to Volunteers’ Month. Our members and volunteers distributed 80 leaflets around the surrounding houses and created posters which were displayed in the Co-op and Morrisons, Birtley. We also produced specific flyers and distributed them to the four local housing schemes we are now working with.

Our volunteers discussed their roles with members of the local community and we then presented a range of qualifications that our volunteers have undertaken in the past few months to support our Health & Safety policies related to the running of the community café, including Level 2 - First Aid at work, Level 2 - Fire Safety, Level 2 - Health & Safety, and also to develop their work-related skills.

It was a relaxed but informative afternoon with very positive feedback. Comments included:

*“I prepare the raffle prizes for fundraising events and support the card making enterprise. I engage the members and in turn helps their creative skills I also find this very enjoyable”
June, Birtley*

*“I used to help with the admin, but now help with the community café. I love to see the development in the young people, and I enjoy feeling valued and part of a lovely team of people”
Teresa, Harlow Green*

*“I enjoy spending time with the group. The members are all truly exceptional in what they do - watching their confidence bloom into fine young adults”
Miriam, Gateshead*

The following Tuesday the existing volunteers were invited to Afternoon Tea at Lumley Castle. We were able to negotiate a free private room within our booking which made for a special day, none of our volunteers had been for Afternoon Tea and therefore it was an opportunity to thank our volunteers in a way they will remember.

Our volunteers are very generous with their time and we recognise each and every hour of contribution. We are very grateful for the funds to allow us to thank our volunteers for another 12 months of dedicated support.

The grant has allowed our volunteers to come together and celebrate the developments of the charity over the past 12 months. We have developed links further with the local community and the potential for new volunteers following the Making A Difference Day.”

Volunteer Month - June 2017

We are delighted that our volunteers were able to meet with each other and discuss their involvement with the charity, and the achievements from the last 12 months.

We would like to thank the Gateshead Fund for supporting our Volunteer Celebration Day.

Charities in Gateshead have a vital impact supporting our local community, and without the support of generous volunteer time this would not be possible.

Afternoon Tea at Lumley Castle, Chester-le-Street.

Birtley Community Association

Project:	Community Volunteers
Grant amount:	£280

“The grant helped us to appreciate the volunteers who give many hours in supporting the facilities of the centre, It enabled us to reach out for more people to further develop opening times of the shop and further support for the café.

The volunteers benefited from the social contact with others. They would normally be at home and alone, so many new friendships have been made.”

Winlaton Vulcans Rugby Football Club Limited

Project:	Rugby Force Weekend
Grant amount:	£300

“We are a small local community club with few wealthy members so all of our income is self-generated and is fed directly back into the maintenance of the club. The Grant income is a valuable source of extra essential income.

We need to attract more people, other than our usual supporters to become involved with us. We are attempting to attract other sports to use are facilities which will mean our facilities being used by as many different people as possible. We have attracted a new senior male football club to be based at our club. It is the only Saturday football club in Blaydon. If we do not actively both renovate and paint the changing rooms and also improve our facilities we will lose, let alone not attract people to partake in sport and social activities.

The aim was to improve and renovate existing changing facilities and create a shelter above the café. The ongoing renovation and painting of the changing rooms and shower/bath area is an essential annual requirement. The café is available to be used to supply refreshment for anyone either taking part or supporting sporting and social activities at our club site. Currently it is our close season but through July we have hosted senior and junior rugby league games and tournaments with Gateshead Storm, an U16s rugby union tournament arranged through the RFU with teams from eleven clubs. This weekend, over two days, using our club facilities, Winlaton Juniors football club have hosted an U7s and U8s tournament with teams from over twenty clubs.”

Fighting All Cancers Together

Project:	Friends of FACT
Grant amount:	£300

“The initial recruitment drive was kickstarted by our celebratory open event, Friends of FACT on the evening of June 5th with 15 volunteers. The evening focused on supporting our Wig walk Event 2017 on the following Sunday by arranging hand-out packs, sorting tombola items and signage. With their support we then recruited an additional 20 volunteers for the Wig walk making a total of 35 volunteers!

Our successful volunteer month continued with volunteers recruited for raffles at Swalwell Fire Station and Dunston Fire Station, fundraising at Emmanuel College summer fair, Kingsmeadow School volunteer week office admin, Merck Dolme corporate volunteers summer garden clearance at FACT Centre and volunteers helping to run services. We also had additional office admin and reception support during the daytimes including two disability placements.

There were a staggering total of 85 volunteer roles covered by approximately 70 people (some people went to more than one event) during June so we have boosted our volunteer commitment and 25 of those people were completely new to FACT and had never volunteered with us before. As a result, we have established new links and advocates for our organisation and now have a volunteer who kindly supports our reception on a part-time basis, fielding calls and greeting our visitors, all helping FACT run more efficiently.

We are delighted that one of the ladies helping here whilst on a disability placement has now completed her scholarship following her time at FACT.”

The Friends of Gateshead Central Library

Project:	Community Garden Party
Grant amount:	£300

“Several people who attended the functions were pleasantly surprised to learn that the Library possessed areas they had not known about and offered more facilities and functions than they had previously been aware of. We also gained two new active Friends, and the promise of future volunteers to help with the adult gardening group and the Friends Like us initiative: monthly social events for dementia sufferers and their carers, adults with learning difficulties, the lonely and the elderly.”

Crawcrook & Greenside Local Environment Group	
Project:	Feasibility Study to assess possibilities for improvements to Crawcrook Park
Grant amount:	£12,080

“The funding has enabled the organisation to build on experience to date and develop its role in the community more fully by embarking on a larger project through which it can fulfil its broad objectives in relation to environmental improvement. It provided the opportunity to extend community engagement through consultation on a project which has wide appeal and potential to benefit all sectors of the community i.e. children and young people, families, older people.

It also enabled the group to develop its profile within the local community and raise awareness of its broad aims and objectives which will improve volunteer recruitment and increase the capacity of the group to carry out a range of activities to benefit the local environment. The group developed skills through the experience of the process of commissioning, project management and public consultation which will be of benefit to future projects.

The feasibility study and costed proposal for improvement to the park will provide a firm basis for further funding applications to bring about the agreed improvements. This will result in a park which can meet a wide range of needs by providing a safe, attractive recreational area right in the heart of the community. There will be potential benefits for the all residents in relation to pride in the local environment, enjoyment and healthy living, and increased opportunities for community engagement through extending the range of volunteering opportunities.”

Gateshead Older People's Assembly	
Project:	Developing Capacity within Gateshead Older People's Assembly
Grant amount:	£9,321

“The Administration and Finance Officer worked very hard to develop a new in-house finance monitoring system and this was achieved by the end of the financial year 2016/17. The increased clarity resulted in our accounts being completed and signed off in record time and they have already been submitted to the Charity Commission well ahead of schedule.

As an organisation, we have grown significantly in the past two to three years and our existing systems were not fit for purpose for the increased income and expenditure. Our membership has grown to over 950 in the past year, so we actually printed 1,500 flyers and distributed 950 to our membership. The remaining 550 have been given out at events and to stakeholders. As a result of the flyers, donations to the charity increased.

We identified a volunteer (one of our trustees) who would make the phone calls to our membership and we arranged for adult safeguarding training with the local authority in case any issues were raised during the phone calls - thankfully there were not.

This grant has supported the Assembly as we grow incrementally. The numbers of beneficiaries, members and volunteers have all increased over the past two years and we need to develop our internal systems and become more sustainable as we grow. This grant has helped our organisation to become stronger so that we are able to support more people every year. Thank you.”

Wayout in Gateshead (WinG)	
Project:	WinG/Duke of Edinburgh Award Development Project
Grant amount:	£4,231

“By taking on the Operating Licence for the Duke of Edinburgh Award (DofE) Awards in Gateshead we have been able to deliver DofE awards to groups and individuals that would otherwise have not been able to take part. This has then given the participants all the normal outcomes of the DofE award: raised self-esteem and confidence, learning new skills, improved job skills, resilience, improved communication skills and teamwork.

As an organisation it has allowed us to hit some of our Charitable goals whilst also providing a platform to secure new paid work and therefore strengthen the organisation and make it more sustainable in the long-term.

An unexpected benefit was the recruiting of individuals and groups from outside of the Gateshead area and the agreement from DofE to be able to extend the licence to some groups in the Newcastle area. This will again allow us to become more sustainable in the long-term.”

Special Olympics Gateshead	
Project:	Project Uplift
Grant amount:	£3,000

“38 Special Olympics Gateshead Tyne and Wear athletes participated in seven sports at the 2017 Special Olympics GB National Summer Games between August 7th and 12th, securing 52 medals. The conduct of our athletes was impeccable throughout the games and their sporting performances of the very highest level.

On the back of the National Summer Games, one of Gateshead Tyne and Wear athletes, David Martin, was selected to represent Great Britain in the Commonwealth Powerlifting Federation Championships in Potchefstroom, South Africa in September 2017 from where David, went onto win a Gold medal for his country.

The grant has enabled Special Olympics Gateshead Tyne and Wear to achieve continual growth in people with learning disabilities, with the promotion of their successes, serving as a catalytic force in attracting more athletes into the club from the Gateshead, Newcastle and South Tyneside regions. The Special Olympics GB National Games was a phenomenal event, enabling people with disabilities with a platform in which they could demonstrate their talent and abilities on a national stage and the event will surely leave lasting memories for many years to come. From seeing athletes walk into the opening ceremony, held at Sheffield United's Bramall Lane football ground, right through to their participation at competitive events, there was prevailing sense of pride. Individuals who may have previously looked to other people for strength and confidence, quite rightfully, were proving that those are attributes that actually lie within them. To go away from their home, and parents who they may never have been previously away from, spend five nights in Sheffield, getting up at 5am to get ready for events each day and then cope admirably, with the rigours and pressures of competition, was truly a sight to behold and something our athletes 'stepped up to the mark' to achieve.

Our athletes were thrilled to produce a song by re-recording the 1982 'This Time' England World Cup song with football legend, Kevin Keegan. The Kevin Keegan event with our athletes was truly inspiring and typified that the 'sky's the limit' for these athletes. With the right funding, the charity continues to demonstrate that there is an Olympian in every one of us.”

Dunston Community Centre	
Project:	Kitchen and Café Refurbishment
Grant amount:	£5,430

“In January, as soon as we knew that we had secured funding, we started planning and developing a cookery course which would help care leavers to acquire basic cookery skills, learn menu planning and budgeting in conjunction with Gateshead Council Care Leavers’ Team.

We also planned to use refurbished kitchen facilities to mount a baking course for mums who attended our toddler play group. This, initially, proved very successful with young mums who lacked confidence to bake their own biscuits and cakes taking turns to work in the kitchen whilst others watched their children in the adjacent hall and we ran this monthly course through to the summer. It hasn’t restarted after the summer holidays but three of the mums now attend regularly and have volunteered to run the play group and organise additional toddler activities, such as a Halloween party and a Christmas Party.

But the best outcome of the refurbished kitchen facilities has been the almost accidental creation of a Thursday baking group, after a couple of the grandmothers came to the baking group with their daughters, and then subsequently introduced their friends to this group. These were ladies who already possessed baking skills but had other issues: two ladies were recently bereaved and were in danger of becoming isolated, another had confidence issues, another had mental health issues. This little group now meets regularly to supply the café with cakes, pies and pastries and worked furiously to produce cakes, biscuits and pies for our recent fund-raising Christmas Fair .

Our inability to establish the planned cookery course for care-leavers has been a substantial disappointment, but we will persevere and will soon, hopefully, be able to deliver this course. However, the development of the mums’ baking course was a positive endorsement of the way in which the re-furbished kitchen can be used as a teaching and learning area, and attracted some mums into the centre for the first time and they have now become volunteers helping with toddler-related activities. And we are particularly pleased with the development of the ladies’ baking group, which is clearly offering substantial support to some vulnerable ladies who probably would not have surfaced in any other setting. The baking course has made a tremendous difference to them, as much as they have made a contribution to the produce sold in our café thus helping support the centre’s finances.

Thanks to the kitchen refurbishment, we have increased the number of volunteers by five as we had hoped. In honesty, we have not increased the numbers using the centre by 60 although we have gone some way towards this as the refurbished café facilities, plus the virtually constant supply of freshly baked cakes and pastries, now attract a local walking group on a regular basis.

Gateshead Visible EM Support Group	
Project:	Gateshead Visible Ethnic Minorities Support Group
Grant amount:	£10,000

“The Capacity building fund has helped us to further develop the capacity of the organisation in terms of governance, operational, monitoring, reporting and financial management systems. In addition, we have been able to further develop our fundraising strategy to include business donations and digital strands, enabling us to implement and diversify our income generation in the long-term.

Training and development has been delivered with trustees, staff and volunteers to ensure we have met all the milestones set as part of the funding criteria and to enable the organisation to develop our capacity. The funding has contributed to some core running costs and allowed the organisation to employ a part time salaried community development worker and provide our trustees and volunteers with the appropriate training and development.

Through work we have delivered this year we continue to support BAMER communities in making representation to service providers and ensure they have equal access to the services they provide; we provide an opportunity for communities to raise issues of concern and take positive action; and develop effective links between organisations and other associations operating in the area, on matters of common concern.

The funding has also enabled the organisation to sustain, develop and improve across various strands of our work, including Gem Cricket Club, which continues to go from strength to strength in terms of engaging with the young men and male adults from BAMER and wider communities. This has been a real success story for the organisation as the team has consistently won trophies and topped the league table, with individuals showing great leadership and as well as being excellent role models.

We have worked with and supported 52 volunteers this year who have volunteered for sessions and projects as well as other festivals, concerts and events that GemArts has delivered throughout the year. Our Volunteers Handbook outlines all the opportunities that potential volunteers can get involved in, and to make their experience rewarding as possible. This year we have supported and worked with over 2,500 people from across all age ranges, faith communities and ethnicities

The Kittiwake Trust	
Project:	Borderline Books
Grant amount:	£5,000

“Principally, the grant gave us the peace of mind that we would be able to cover the business rates charges of close to £5,030. We have applied for a reduction in business rates so that future grants can be used to help the work we do.

As mentioned when we applied for the grant we had started supplying books to police custody suites. This has increased to other areas such as Durham and Cleveland. We have also supplied prison libraries further afield and are now sending books to individual prisoners who write requesting books, the majority of which are to support educational sources.

We gave away a total of 14,222 books in 2017.”

Leam Lane Bowling Club	
Project:	Mid Summer Madness Afternoon
Grant amount:	£230

“The event was held the afternoon of 16th June 2017 and was very well attended by volunteers from both the Ladies and Men's Leam Lane Bowling Club and also the Gateshead Indoor Bowling Club. We also gained another four volunteers from that friendly, pleasant afternoon. Other bowling clubs have heard about our efforts and we are now said to be the most sociable in Gateshead and beyond. We would like to take this opportunity to thank you for giving us this grant, It was much appreciated.”

Guidepost	
Project:	Guidepost - Future Planning
Grant amount:	£1,920

“Guidepost have developed a business plan, which has three aims which are 1. To be sustainable and build our capacity, 2. To provide an environment where information and advice services can engage with Guidepost visitors to promote their wellbeing, and 3. To support people to live and lead fulfilling lives and avoid social isolation.

All three aims have been broken down into achievable objectives and work within the objectives is either complete or ongoing, which is enabling Guidepost to engage with more visitors and partners, therefore benefiting more individuals within the community of Gateshead to have a point of contact to support them to maintain their independence, keep safe and keep well.

Guidepost has developed alternative enterprise models to ensure that venue hire can be sustained; we have done this by providing monthly social events and activities such as a disco where an entrance fee is charged alongside a fee for refreshments and snacks. We have also raised the entrance fee donation from visitors to £2.00, making Guidepost self-sustainable.

Guidepost has delivered many activities during this project year that have benefited our visitors they have been educational, social and health related. We ran two Energy Sessions, eight ‘smile through sport’ sessions, weekly health walks, monthly drop-in sessions with the wellness coaches (this service has since disbanded) training courses through New Vision Training organisation on Health & Safety, First Aid and hate crime. Digital Voice training organisation and Gateshead Housing Company ran two six-week courses on iPad training and safety on social media, drop-in sessions and surgeries with the local Community Engagement Officers from Northumbria Police, career advice and opportunities from the National Careers service and local volunteer opportunities.

The grant has really benefited Guidepost by developing a business plan and focusing on how to develop and take Guidepost forward the aims and objectives, which have made a difference to our existing visitors and reaching new visitors in the Gateshead community.

Guidepost recognises that individuals can live on the fringe of society and can become isolated and vulnerable, so providing this weekly point of contact is extremely important. The sessions that individuals have been involved in have been very useful and have made individuals more aware of looking after their health and wellbeing and been informative about keeping safe and well. Some of our visitors have now taken up opportunities outside of Guidepost hours which has had a positive impact on their social lives, as well as Guidepost engaging with new partners and organisations.

We have been creative in the way we have looked at sustainability and this again has benefited the people who use Guidepost as they have enjoyed the monthly social activities and have been involved in the planning, advertising and running of them.”

Seven Stars Residents Association

Project:	Wrekenton Community Spirit
Grant amount:	£1,490

"We distributed a copy of the survey to every house on the estate and received 22 responses. Progress with the questionnaires has been slower than we anticipated due to a variety of reasons. The Residents Association is considering how to encourage completion of more surveys so that the work planned as outlined in the grant application can proceed and we have collated the ones already completed.

At our AGM we were able to recruit two new Management Committee members and the members considered ways in which to make progress at a recent meeting. Committee members agreed to call a public meeting in April to discuss the types of activities people would like to see the Residents Association organise. The aim is to provide a range of activities in order to ensure a wide age range is catered for.

Following the public meeting the Residents Association will be better placed to organise taster activity sessions and to identify appropriate locations. Currently, the Residents Association mostly meets in the Wrekenton communal lounge - this is an ideal space for some of the activities already proposed but not all. At the public meeting / AGM the committee members will use the large map of the area to stimulate discussion about the future role and remit of the Residents Association."

Artful Codgers of Winton Court

Project:	Working together with Winton Court
Grant amount:	£300

The event on the 8th June 2017 was a huge success where we were able to recruit 10 volunteers, eight of which now volunteer and help out with the creative sessions at Winton Court on a regular basis. Having volunteers in the creative sessions means that each resident has the support they need to fully engage. The volunteers working at Winton Court have learnt a lot about the older people and vice versa. Strong bonds have been developed.

'I love working with Ellen (volunteer) she brings so much Joy into the court and I look forward to her visits each week, they make my week'

'We have had a lovely time working with The Artful Codgers of Winton Court and are very pleased that the court has been able to recruit more regular volunteers, the workshops that take place at the court are a huge success and we hope that our relationship with the court/residents will continue to develop'

'The residents really enjoy the workshops and get alot out of them, its great to see more families getting involved with the sessions, it means alot to the residents'

HTH Teamwork Ltd.	
Project:	Happy to Help - Growing our Sustainable Independent Living Project
Grant amount:	£10,000

“As a result of the grant, Happy to Help has experienced growth in employees, client numbers and income over the last 12 months. This is largely due to the increased promotion we have been able to achieve and the ability to quickly respond to new enquiries. We have also seen significant, positive changes to the recruitment process and have been extremely pleased to see a continued high customer satisfaction level.

We found the recruitment of a new employee for the Independent Living Team much more effective as a result of the project. The vacancy was more attractive to potential candidates due to the fact that we had built up a good number of working hours before advertising. This made a significant difference compared to previous recruitment attempts whereby only two to four hours could be offered each week to begin with.

Case studies:

Katy, 32, is registered blind and has various health and behavioural issues. She was referred to us by the residential care home where she lives. The care home had four other residents, who are all men. She was feeling isolated and lacked female company with only seeing her family, who live in Yorkshire, once per fortnight. Katy is our youngest service user and she has benefited by having our service each week. She greatly enjoys the one to one attention and Katy calls her worker her 'best friend'. She enjoys playing games, singing songs, using her keyboard to make up tunes and loves to hear jokes. The care home staff regularly comment on the laughter that they hear from Katy during her visit. Although Katy's behaviour can be unpredictable, and at times challenging, she responds brilliantly to her worker and we have had very positive feedback from Katy herself, her family and the care home support staff team.

Rita, 91, is a wheelchair user and has used our service for almost 12 months to get out to do her shopping. Our new worker, Anna, employed as a result of the growth of the Independent Living service, received in-house wheelchair training so that she could begin to look after Rita on her visits. Both Anna and the existing worker, Mandy, took Rita out together at first so that there was a seamless handover period and to ensure that Rita felt comfortable with the change. Rita said “I don't know what I would do if I didn't have Happy to Help with me so that I can do my shopping”. Anna continues to provide the weekly social care service to ensure Rita's needs are met.

Doreen, 80, is a new service user who goes out fortnightly to do her shopping. Doreen is blind in her left eye and due to arthritis she struggles to carry anything heavy. Doreen also struggles to process and retain certain information but she is fully supported by her worker Mandy during her outings. Doreen enjoys having the choice to make her own shopping purchases and thrives on having the social interaction when she is out. She regularly tells us “I thoroughly enjoy my shopping days with Mandy”.

Wood Green Residents Association	
Project:	Outdoor Celebration Day
Grant amount:	£240

“The grant has enabled us to get more of the residents and other local members of the community to join us a carry out activities in our area. It has been an incentive to entice some of the members to come along, have some lunch, meet new friends, and make the area a nicer place to live. People have indicated that they feel better being with others and having the gardening activities has given them something to do. And as the activities have a social element, health and wellbeing has been increased

35 people aged between 45-92 years old came to our communal lounge and got involved in our activities. We carried out gardening activities which brought older people together, reduced social isolation, increase physical activity and skills were learned and shared. To entice new volunteers to our activities we put some food on to celebrate the work that was carried out by volunteers.

Currently the volunteers have been meeting most Wednesdays, weather permitting, to continue carrying out gardening duties around our area. And we also received funding and had two new raised beds fitted next to another one. We now have three raised beds and we are planning to run more sessions this June.”

Friends of Felling Park and Town Centre	
Project:	Community Celebration
Grant amount:	£300

“The grant allowed us to purchase items outlined to support our event. This helped us promote our group and its activities and the drinks and snacks helped to attract people to come along. We had ITV come to visit us the day before our event to find out what we were doing as we linked our event to the Jo Cox ‘The Great Get Together’. This was on the 6pm news. ITV came to visit us on the day also. This has helped us promote our groups existence and activities to the wider community and unable us to get local people’s views and opinions as well as identify new volunteers.

We engaged with over 200 members of our community. This included our management committee, our volunteers who carry out work in the park as well as those who get involved with running events and activities. There was a lot of people who came to see us, also supported by local schools, who we have also worked with, and more people are now visiting the park than before. Our social media/Facebook page has many positive comments from local people who say the park is a nicer place.

We have met with members from the Jewish Council and the local girls schools now picnic in the park. And they have also asked if they could do some planting in the park which is great news for us! We are now looking at how we do this.”

Edberts House	
Project:	Additional financial management capacity
Grant amount:	£10,000

“Initially, Robson Laidler, the accountants, analysed our financial requirements and assessed how our procedures could be more efficient and streamlined. Their accountant attended our Board meetings to report back on progress and to give detailed financial reports. This was written up as a procedural guide. Our Finance Administrator worked alongside them to watch and learn their processes, and we are now tapering off their support, and they are providing monthly oversight to our administrator as she increasingly manages the processes independently.

I worked with Robson Laider to develop a 'traffic light' system to monitor existing funding, which provided better information to the Board about whether our spend was where it should be, and whether we were meeting our required objectives. This was enhanced by improved budgeting and management account presentation. We are still working on better processes to encourage managers to take charge of their own budgets, devolving authority across the team. We have attracted sufficient funding to meet all requirements for 2018/19, which is an improvement on previous years when we were generally looking for additional funding throughout the year to break even.

The effective management and oversight of the financial arrangements within our organisation, although not immediately impacting our beneficiaries, is central to the service that we deliver, as it means that we can assess how well we are stewarding the money that is given to us. As our work has expanded, the requirements of the finance function have changed; we have increasingly large numbers of grant funders, each with a different monitoring requirement, and operating over six sites meant that we needed to change the way that processes had been done in the past. This funding has given us the extra capacity that we needed over the past year to respond to these changes, and enhance our internal capacity to meet the new demands going forward.

Building capacity is also one of our charitable objectives: our finance administrator is a local young woman, who was previously a community member who used Edberts services as a volunteer. Through this process she has increased her skills, and therefore enhanced her own job prospects and opportunities for the future, as well as being able to fulfill her role at Edberts more effectively and efficiently.”

Jigsaw Recovery Project CIC	
Project:	Multiple complex needs youth support worker
Grant amount:	£10,000

“The post holder worked with six care leavers over the grant period and completed the NVQ Level 3 Health and Social Care. The post has been crucial to the growth of the service, in supervising volunteers, as well as service users. In terms of development the post has been a vital aspect of the third six-month pilot being commissioned.

Case study - 16-year-old male

This young man came to Jigsaw Recovery Project (JRP) having been moved in to a residential care home, due to his Offending behaviour and his out of control drug use. He was not attending any education and had not done for nearly a three-year period. We first started with the attachment part of the process that we work with, so he learned that he could trust us. This means the work we aim to do in the future has a stronger base level.

When we were working with him we started to work on his offending behaviour, highlighting the dangers of what his behaviours can have not just on him but also the local community as well as his family. Since then he has not offended and has been released from his YOT order.

The young man was not willing to look at his drug use and so we looked at his education as the next level of challenging his behaviour. He said that he was “willing for us to bring outside education in to JRP” and so we did for several sessions. When we used these sessions to show his level of education, on speaking to the local authority around this, he agreed to go back to school for two afternoons a week. For the last six-months he has been in education for three days per week and is now sitting his GCSE exams.

We at JRP have listened to his voice all the way through and some of the directions he has asked for his own learning we have implemented into our working practices. When he completes his Exams, we have promised to take him on as an apprentice Support worker, Gateshead Collage are going to deliver the training and he will do his work place with us, here at JRP. The young man in question is a true and inspirational young person for whom can be more than pleased with his own efforts in the last 12-months.

SPLASH - Special Play & Leisure After School Hours	
Project:	Fitness Fun 4u!
Grant amount:	£1,980

“The Specialised Fitness Sessions have delivered fantastic results surpassing even our own expectations! A total of 18 children, suffering from a range of disabilities, enjoyed weekly sessions tailored to their individualised needs. The dynamic experienced instructor designed fun games and activities to help them develop in core areas of agility, balance and coordination, as well as spatial awareness, speed and confidence in movement. The class proved to be an extremely positive experience, where key skills were worked on and advanced in an enjoyable forum. Many of these children have resisted previous efforts encouraging them to keep more fit -- a vital area for their physical and mental health and wellbeing -- but were won over by the exciting and personally designed way in which the sessions were presented.

The small groups of six children really interacted beautifully over the year turning their attendance into a much anticipated weekly-social-event for them! -- an area they often find themselves excluded from. The unsurpassed joy on the faces of the children as they received their end-of-term certificates awarding them for their hard work, performance, and the various levels they'd achieved was indeed a sight to behold! -- and indeed a key milestone. It was an exhilarating moment for them with the feeling of pride they can usually only dream of; success in academic realms being so far beyond their reach. Feedback from parents and carers showed this feeling of achievement to have engendered significant boosts in self-esteem, leading to better opportunities for success in other areas as well as generally happier and more self-content children.

The added benefit of respite for the families also proved extremely valuable; one parent commented, 'We all had a chance to get on in a calm environment while J.D was out, and when he returned we found him to be in such a happy and contented state', while another parent mentioned 'It was a fantastic weekly opportunity to spend some quality time with Y's brothers -- they usually lose the lion's share of attention to her constant needs.'

Much of the impact is indeed ongoing and long-term:

- Improved fitness levels have promoted better long-term physical and emotional wellbeing.*
- The children have enjoyed the sessions and therefore developed a positive attitude towards keeping fit; a factor that will encourage them to keep fit in the future.*
- The improved self-esteem engendered by the all-too-rare feeling of success and accomplishment, has given them the confidence to aim higher in other areas, thus bettering their opportunities for future success and independence in life.*
- The self-contentedness this brings with it has turned them into happier people; allowing them to be more well-liked by those around them and making it easier for their families to deal with them.*
- The respite has been a true life saver for their families and helped family dynamics remain stable; minimising the chance of complete family breakdowns.”*

Dear Sir/Madam,

I am writing to thank you for the grant that you recently awarded to Gateshead Older People's Assembly.

Your contribution of £280 towards a celebration of our volunteers and community garden for Gateshead Volunteers month will help us show how our volunteers support our work and recruit new volunteers to continue this work.

Without your support we would not be able to do this, therefore I would like to thank you on behalf of our Board of Trustees and our Members for your generous grant.

Yours sincerely,

Lola McPartland
Activities and Volunteering Coordinator

Dear Gateshead Fund Grant Holder,

We were delighted to be offered a grant from the Gateshead fund to allow us to develop the capacity of The Soundroom. We are a small charity and the money will make a big difference to what we can do in our local community. We really appreciate the help from The Gateshead Fund and The Community Foundation, which will help us to achieve our goals and will significantly strengthen our organisation.

So a big thank you from our trustees, staff, volunteers and beneficiaries!

As requested I'll complete the online monitoring at the end of the project, if you have any questions in the meantime or want an update of how The Soundroom is developing, please don't hesitate to get in touch.

Kind regards,

Tom Robinson

Dear Community Foundation,

On behalf of The Birtley Community Partnership, I would like to thank you so much for considering our application for The Gateshead Fund. We are delighted that our application has been approved, especially as no doubt there were many others worthy of receiving funding.

The £9,800 will make such a big difference to our organisation. It will enable us to continue the good work we do in our community and help us become more sustainable for the future.

We look forward to showing you the impact of your award on our organisation and our community. Thank you once again.

Yours sincerely,

Tracy Rogers

Dear Sir or Madam,

RE: Grant offer from the Community Foundation

On behalf of the staff, volunteers and young people from the North East Young Dads and Lads Project CIO, can I take this opportunity to thank Community Foundation donors for the recent grant of £9,999, towards the costs of our 'Foundations for Fatherhood' Project.

We look forward to using this grant to further our efforts to advance the lives of young fathers and fathers-to-be living in Gateshead.

Yours sincerely,

Dear Trustees/Members

The Gateshead Fund

Thank you so much for your letter of 9 October and very generous grant of £9050 towards our Josephine and Jack Project in Gateshead. The JJP trustees and project users have asked me to pass on their heartfelt thanks and very best wishes and to assure you that the money will be put to very good use.

In due course we'll send you a report.

With best wishes

Yours sincerely

For the attention of the Funder

Dear Sir/Madam

Thank you for notifying me that the North Regional Association for Sensory Support has been awarded a Capacity Funding Grant of £9,000 for the next year. These funds will help quite significantly with our planned projects working with sensory loss individuals within the Gateshead area.

By undertaking such work, we plan to improve access to information, a greater knowledge of the difficulties sensory loss face within their day to day lives and how professionals can improve their frontline communication skills. Also, with the recent welfare reforms we hope to assist many of our service users on money management skills when it comes to dealing with financial hardship and to establish preventative measures to stave off spiralling debt within the more vulnerable and less well off individuals we support.

In compliance with your requirements, I will complete regular documentation and updates on the planned progress in relation to the Deaf Awareness Training and Budget Training.

Yours faithfully

Jackie Wanless
NRASS Service Manager

11 October 2017

Dear The Gateshead Fund

We would like to say how grateful we are for your support. Thanks to your help, we will be able to update staff and volunteer training so that our new and existing team members can deliver our day care services to the highest possible standard in terms of health and safety, food hygiene and manual handling, including wheelchair handling.

Funding will also allow us to create effective marketing materials that will be easily read by the vulnerable older people we aim to reach. We plan to encourage more members of the community aged 65 and over or who have disabilities to attend our day care services which offer far reaching benefits. They help to alleviate the effects of isolation, vulnerability and loneliness and enable people to lead fulfilling lives whilst remaining independent and at home for as long as possible.

We look forward to sharing with you the impact that the grant will have for local older people. In the meantime, please feel free to contact us at any time on 0191 4900945 if you have any questions, would like an update on our activities or wish to visit us to see the services we provide for the community.

FAO: the advisors for the Gateshead Fund

Dear Sir or Madam:

I am writing to thank you for the generous offer of a grant of £2400 to Workplace Foundation from the Gateshead Fund at the Community Foundation for a Workplace Foundation community launch event in 2018.

Workplace Foundation is an exciting new project for us building on nearly 15 years of commitment to the community of Gateshead through our gallery in the Town Centre.

This grant comes at a crucial time as we develop a programme aimed at further adding to the cultural texture of the borough and engaging new audiences in our work.

As we develop our plans we look forward to welcoming you to our projects.

In the meantime if you would like to know more please don't hesitate to contact me.

Yours Sincerely,

Paul Moss

Dear Sir/ Madam

Gateshead Fund (181868)

On behalf of Wayout in Gateshead (WinG) and all the people associated with us we would like to take this opportunity to offer a huge thank you for the grant awarded from you through the Community Foundation.

The grant will allow us to offer outdoor adventurous activities to Syrian refugees to allow participation in outdoor personal development activities.

As well as taking part in the activities and the health benefits of doing an outdoor activity, it will also offer them the opportunity to take them out of their usual environment and comfort zones as well as learn new skills allowing them to gain in confidence and self-esteem which will impact on their everyday lives.

Thank you again for the opportunity to run these activities for Syrian refugees.

Yours faithfully

Simon Tibbitts

20 April 2018

Dear Sir/Madam

On behalf of everyone at Special Olympics Gateshead, Tyne & Wear, I wish to convey our thanks to everyone at Gateshead Fund for the generous donation of £5000.

This money will contribute towards our athlete's attendance to the World Summer Games in Abu Dhabi 2019, entry into regional & national competitions and it will also contribute to securing training facilities for our athletes weekly training sessions.

All at Special Olympics really appreciate your kindness and once again, sincere thanks for your support.

Kind Regards
