**Please state the ground(s) for review** (please read guidance note 2)

The premise has been subject to complaints concerning a possible infestation and cleanliness since 21<sup>st</sup> June 2018, when an inspection was carried out and actions to clean the premise was required.

On 13<sup>th</sup> July 2018 an inspection was carried out of the above premises under the Food Safety Act 1990 and Health and Safety at Work etc Act 1974. The officers undertaking the inspection found rat droppings and gnawed food throughout the premise and served a Hygiene Emergency Prohibition Notice of the Food Business Operator Ms Farah Asim. The notice prevents the premise from being used as a food business until the infestation has been removed and the premises cleaned.

At a magistrate's court hearing on 18<sup>th</sup> July 2018 the notice was confirmed and a Hygiene Emergency Prohibition Order was issued by the court to ensure the premises remains closed.

The condition of the premise was such that it failed the licensing objectives for the following reasons:

**The prevention of crime and disorder:**  
An infestation of rodents and failure to keep the premises clean and in good repair are contrary to Regulation (EC) No 852/2004, an offence under the Food Safety and Hygiene (England) Regulations 2013.

**Public Safety:**  
The rodents within the premises will have urinated and defecated on fixtures and fittings, exposing members of the public to the risk of infection. Also, the general standard of cleanliness was well below the standard expected and posed a risk to members of the public visiting the premise. The fact that some items had been previously raised with the owners without full action being taken

suggests that the license holder has been unwilling to carry out the required cleaning on a daily basis to maintain appropriate standards.

**Protecting Children from Harm:**

Children are more vulnerable to the risks detailed above and therefore any children visiting the premise are at greater risk.

**Please provide as much information as possible to support the application (please read guidance note 3)**

See photographs in separate document.

The premise has been rated as a FHRS 2 (Improvement needed) since January 2017 and no improvement has been seen in the premises condition since that time. There have been complaints during that time about the state of the premise and incorrect storage of refuse, thus having the potential to attract rodents.

The visit carried out on 13 July 2018 showed the store to have lots of clutter and stock stored haphazardly. A number of loaves of bread showed evidence of being gnawed by rats. Floor areas were dirty and had not been cleaned recently. The front window was broken next to the magazine rack at the front of the shop, with no protection for the public from the broken glass and allowing easy access for rodents.

Rat droppings were seen throughout the premise and on food items.

There were a number of rat and mouse traps around the premise indicating that the operators were aware of the extent of the problem.

It appears that the operators of the business have little interest in improving the premise or complying with the licensing objectives.

(Officers then visited the premises again on 20<sup>th</sup> July at the request of the owner and lifted the prohibition allowing the business to reopen. Standards were improved and necessary works carried out).
