Any material change to the approved plans will require a formal planning application to vary this condition and any non-material change to the plans will require the submission of details and the agreement in writing by the Local Planning Authority prior to any non-material change being made.

3. No development above damp proof course shall commence until samples of all materials, colours and finishes to be used on all external surfaces, have been submitted or made available for inspection on site and are subsequently approved in writing by the Local Planning Authority.

4. The 2no windows on the north elevation, as shown on approved plan DR-A-31 003-S3-PO3, received 06.11.2019 and the window on the south elevation, as shown on approved plan DR-A-31 004-S3-PO3, received 06.11.2019, shall be glazed with obscure glass at pilkington level three or greater (or equivalent). The obscure glazing shall be retained thereafter.

5. Prior to commencement of the development hereby permitted (except for the erection of the site security hoardings, demolition of the existing buildings) additional Phase II intrusive site investigation works shall be undertaken, in order to ascertain the ground conditions and to establish the presence or otherwise of shallow mine workings and a Phase II Risk Assessment report shall be completed and the findings submitted for the written approval of the Local Planning Authority.

6. Prior to the commencement of the development hereby permitted, details of remediation measures to remove risks associated with coal mining legacy in the development area shall be submitted to and approved in writing by the Local Planning Authority.

7. The remediation measures approved under condition 6 shall be implemented wholly in accordance with the approved scheme prior to the commencement of the development hereby permitted.

8. In the event that contamination is found at any time when carrying out the approved development that was not previously identified, it must be reported in writing immediately to the Local Planning Authority. Development must be halted on that part of the site affected by the unexpected contamination. Where required by the Local Authority an investigation and risk assessment must be undertaken, and where remediation is necessary a remediation scheme shall be submitted to and approved in writing by the Local Planning Authority. Following completion of measures identified in the approved remediation scheme a verification report shall be submitted to and approved in writing by the Local Planning Authority.

9. All trees indicated on plan DR-A-10 002-S3-PO3, received 06.11.2019 shall be retained for the life of the development, unless submitted to and approved in writing by the Local Planning Authority

10. No development or any other operations shall commence on site until a scheme for the protection of the existing trees, shrubs and hedges growing on or adjacent to the site has been submitted to and approved in writing by the Local Planning Authority. The scheme must include a plan clearly showing the location and specification of the protective fencing to be used.

11. The protective fencing approved under condition 9 must be installed prior to the commencement of the development and thereafter retained intact for the full duration of the construction works and there shall be no access, storage, ground disturbance or contamination within the fenced area without the prior written approval of the Local Planning Authority.

12. Unless otherwise approved in writing by the Local Planning Authority, all external works and ancillary operations in connection with the demolition and construction of the development, including deliveries to the site, shall be carried out only between 0800 hours and 1700 hours on Mondays to Saturdays and at no time on Sundays, Bank Holidays or Public Holidays.

Any additional comments on application/decision:

The application had previously been considered at the Planning and Development Committee meeting on 18 December 2019, when speakers both in support and opposed to the development were heard. The application was then deferred for a Members' site visit that took place on Thursday 8 January 2020.
