

[Redacted]
Ryton Village
The above
No 40 [Redacted]
June 16th 2021.

Dear Sir / Madam,

I write to you to express my objection to the planning application of The High Noon to extend to an outside bar, outside music, although I'm led to believe an outside bar is already being used.

I live opposite The High Noon and have done for over 30 years and during that time have had no problems. However during lockdown and the beer ban being used, it has been an annoyance.

The clientele has changed from families to youngsters who have no regard for people living in the

village. The noise is bad enough without the addition of music. We have had to put up with drinking, foul language, illegal parking, litter, and men urinating on our walls.

It says it all when "Bouncers" have to be employed although sometimes they seem to be the problem rather than the answer.

I am aware business owners have to make a living but I don't see why all the residents expense the price have attended on too occasions that I know of which again speaks volumes.

I hope you give very careful consideration to the application and the fears of the local residents.

Yours faithfully
Shelina Birkon
