Partner Feedback**Gateshead Health NHS Foundation Trust**

OSC is asked to consider including within its work programme a focus on Delayed Discharges; an update on Health Inequalities work; the Better Care Fund; Mental Health/ Learning Disabilities and Standards amongst Care Home Providers.

CBC Health Federation Limited

Gateshead Primary Care Networks (PCNs) are supportive of the areas that the committee is focusing on and recognise them as challenges for primary care. The PCNs will be working together with the CCG over the coming months to address the areas the OSC will be focusing on.

As patient access for health and social care services is a key topic that the “system” need to support the focus should be wider than attracting GPs as it is about having a multi-professional workforce attracting the right skills in the right

place at the right time and looking at them living and working in Gateshead.

It is noted that there is nothing directly about mental wellbeing for residents not just post Covid but for staff also.

Gateshead Carers Association

Asks OSC to consider examining the issue of Unpaid Carers within its current work programme given that current projections from Carers UK, pending release of the 2021 Census is that there are now 28,000 Gateshead residents providing unpaid care which is an increase from 22,000 in 2011. Gateshead Carers have highlighted that their funding is insufficient to support all unpaid carers in Gateshead.

Families OSC

CBC Health Federation Limited

It is noted that there does not appear to be anything directly in terms of sustainability or in relation to refugees and working with the harder to reach communities in Gateshead.
