

Title of Report: Managers' Assurance Statements 2021/22

Report of: Darren Collins, Strategic Director, Resources and Digital

Purpose of the Report

1. To inform the Committee of the assurance which Service Directors have placed on their control systems to feed into the Annual Governance Statement.

Background

- 2 The Accounts and Audit Regulations 2015 require Authorities to produce an Annual Governance Statement giving an assessment of governance arrangements and their effectiveness.
- 3 The Audit and Standards Committee agreed on 7 March 2022 an assurance framework which would provide evidence for the completion of the Annual Governance Statement. Assurances from senior managers on the effectiveness of controls they have in place are fundamental within the framework.
- 4 Service Directors were asked to complete self-assessments which took the form of a questionnaire covering the processes in place to manage their key control and governance processes. This included a requirement to state whether they agreed or disagreed that the processes they had in place provided an effective level of assurance in 18 key areas, with a requirement to detail the evidence to support their assessment.
- 5 The process demonstrates four aspects:
 - **Identify** – what do we want assurance on?
 - **Assess** – what are the sources of assurance?
 - **Review** – how is assurance validated?
 - **Act** – what are the opportunities to improve?

- 6 Where managers agreed that they had in place effective controls they could still identify further system enhancements where considered appropriate.
- 7 If managers felt that they did not have sufficient evidence to agree with a statement they were required to identify actions for improvement which would strengthen systems in place to an effective level.

Overall Opinion

- 8 Based on evidence arising from the self-assessments for 2021/22, managers agreed that necessary controls were in place in key processes to allow them to achieve their service objectives and therefore the objectives of the Council.
- 9 All but one of the assessments issued have been returned detailing satisfactory evidence, the exception being in relation to a Service area with no Service Director currently in post. A summary of returns is attached at Appendix 1 showing each process being assessed. The most common areas of improvement identified by managers were in relation to revisiting business planning, reflecting changes in management structures and areas undergoing reviews including risk management, savings plans and GDPR compliance.
- 10 An audit of managers' assurances for 2020/21 has been progressed during the year and an update was reported to the Audit and Standards Committee on 18 October 2021 as part of the Internal Audit quarterly monitoring report. The overall conclusion of this work was that the systems and processes for the completion of the Managers' Assurance Statements were operating well and that they provided a good level of assurance for the 2020/21 Annual Governance Statement.
- 11 Internal Audit has time in the 2022/23 audit plan to review the evidence and actions identified by managers on their assurance statements for 2021/22, including any actions managers have identified to enhance controls.

Recommendation

- 12 The Committee is asked to note the assurances provided by senior managers.
